ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED TENTED TOURIST CAMP ON PLOT L.R. NO. CIS MARA/OLCHORO-OIROWUA/38 IN OLERAI, NAROK COUNTY

INVITATION OF PUBLIC COMMENTS
Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Tented Tourist Camp.
The proposed development will include setting up of 25 luxurious tents and ancillary facilities in a camp area along the Mara River. The total area under development will be 112 acres. Upon completion, the camp will comprise of a watering hole and a salt lick with sundowner bar for game look-out, a nature walk safari by the side of the watering hole interspersed with camp sites, A natural swimming pool and bar beer area with pool bar, camp fire, dancers platform and a fitness centre (sauna, steam and Jacuzzi) and a central landscaped area for outdoor loungers.

The proposed tented camp project will be on land parcel number Narok/Cismara/Olchoro-Oirowua/38 which measures approximately 112 acres in Olchoro Oirowua Ranch in Ololulunga Division, Narok District bordering Lamek and Kimintet Ranches. Narok District lies between Latitudes 00 50’ and 20 05’ south and Longitudes 350 58’ and 360 0’ East occupying a total area of 15,087.8 km2.

The following are the anticipated impacts and proposed mitigation measures:

levels
- Fully adhere to the provisions of Noise Prevention and Control Rules 2005, Legal Notice no. 24 regarding noise level limits at the workplace

Generation of wastewater
- Provide means for handling sewage generated by construction workers (temporary pit toilets)
- Conduct regular checks for sewage pipe blockages or damages since such vices can lead to release of the effluent into the land and water bodies
- Monitor effluent quality regularly to ensure that the stipulated discharge rules and standards are not violated

Incidents, accidents and dangerous occurrences
- Ensure that provisions for reporting incidents, accidents and dangerous occurrences during construction using prescribed forms obtainable from the local Occupational Health and Safety Office (OHSAO) are in place.
- Enforcing adherence to safety procedures and preparing contingency plan for accident response in addition safety education and training shall be emphasized.

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT FOR THE PROPOSED EPC TURNKEY CONTRACT FOR UPGRADE OF KIBWEZI – KITUI – MWINGI – KANDWIA – USEUNI ROAD
INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed EPC Turnkey contract for upgrading of Kibwezi–Kitui–Mwingi–Kandwia–Useuni Road.

The proponent proposes to improve to bitumen standards of Kibwezi-Kitui-Usuuni Road approximately 330km that will form a major link for Mombasa port and Ethiopia, as part of the northern corridor transport improvement project (NCTIP). The project is subdivided into three contracts namely Contract 1: Kibwezi to Kitui (145 Km); Contract 2: Kitui - Mwingi to Kandwia (103 Km); Contract 3: Kandwia - Tseikuru to Usuuni (82 Km).

The proposed project is located entirely in Eastern province and traverses several districts within the province covering a distance of 330km. The proposed alignment will generally follow Kibwezi – Kitui (B7) 145 km, Kitui – Kandwia 103km, and Kandwia-Usuuni 82km.

The following are the anticipated impacts and proposed mitigation measures:

Environmental issue Mitigation Measures

Vegetation loss
- Vegetation should only be cleared where it will interfere with road construction and/or present a hazard to traffic.
- Cutting of trees, other than those mentioned above, for firewood by the workers housed in camps should be controlled.
- Workers should be encouraged to use alternative sources of cooking fuel.
- As far as practicable, materials should not be stockpiled on vegetated areas.
- In areas where soils were compacted during road construction, such as along temporary access roads, the soil should be loosened through ripping to enable infiltration of water and growth of plants.
- Water sources should be handed over to the community should be carefully selected to reduce possible overgrazing in the vicinity.

Soil erosion, run-off
- The success of mitigation measures for soil erosion depends on the design of the road drainage, soil stabilization along the roadside and reserves and the cooperation and participation of the local community.
- Specific engineering solutions should be implemented to mitigate soil erosion.
- All earth cuttings need to be at a gentle angle in order to allow vegetation to grow as steep sides tend to result in seeds washing away rather than having a chance to establish.
- Soil holding structures should be constructed in very loose soils.

Pollution
- Use dust suppressants as far as possible, especially within the towns and at wildlife conservation areas.
- All the workers should wear dust masks at all times when at the sites of high dust generation.
- Warn the neighbourhood of possible generation of dust beyond normal levels.

Waste management
- Construction waste and domestic waste should be stored only in the specially designated places and removed regularly.
- Disposal and burial of waste should be agreed upon in the established order before commencement of the works.
- Discharge of any non-treated drain waters and waste to the rivers, streams, wetlands or on the surrounding land should be forbidden.
- Partly inert waste materials can be used as filling material for reconstruction of
- Periodic inspection of construction works helps to ensure proper handling of waste materials.
- Contractors should encourage reuse and recycling to minimize residual waste.
- A handling protocol, e.g., waste storage away from public view, and provision of retention areas to contain accidental spills of toxic, hazardous, and harmful construction materials, such as caustic and acidic substances, oil, waste oil, diesel, and bitumen, should be prepared and implemented by the contractors.

### Aesthetics landscape
- Spoil materials, including solid waste produced at camping sites for road construction crews, should be properly disposed.
- Improve quarries and borrow areas by rehabilitation to blend with the surrounding landscape.

### Noise and vibration
- As far as possible, attempt to minimize noise, especially noise from heavy equipment when constructing the road through towns and shopping centers.
- Special care should be taken where the construction site is near to sensitive receptors such as schools and hospitals.
- Ensure that construction equipment is operating optimally and with operational noise mufflers where possible.

### Health and safety
- Road construction workers should be informed about diseases that are prevalent in the project area, and how they can minimize their exposure and transmission.
- Mount regular HIV/AIDS awareness campaigns. Condoms should be made available to construction crews.
- Contractors should provide workers with sufficient accommodation for married couples to stay together.
- The Contractors should consider hiring a permanent nurse to attend to emergencies and to mount awareness campaigns amongst the workers.
- Health service providers should be regularly consulted to determine any changes in disease patterns that may be associated with road construction.
- The implementing agency will have to regularly discuss with their counterparts any health implications of on-going road construction.

### Road safety issues
- Design and construction of rumble strips, speed bumps and erection of appropriate warning signs

The full report of the proposed project is available for inspection during working hours at:

- (a) Director-General, NEMA, Popo Road, off Mombasa Road, P.O. Box 67839 - 00200, Nairobi.
- (b) Permanent Secretary, Ministry of Environment and Mineral Resources, NHIF Building, Community, P.O. Box 30521, Nairobi
- (c) Provincial Director of Environment, Eastern Province.
- (d) District Environmental Officer, Machakos District.

The National Environment Management Authority invites members of the public to submit oral or written comments within thirty (30) days from the date of publication of this notice to the Director-General, NEMA, to assist the Authority in the approval process of the project. (EIA/5/2/796)

**Noise and excessive vibration**

- Sensitize workforce including drivers of construction vehicles.
- Ensure proper disposal of waste water.

**Loss of vegetation and or habitat for wildlife**

- Conduct planned vegetation clearance and re-vegetation and retain trees of high cultural value.
- Ensure full compliance to the Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA).

**Fire outbreak**

- The proponent to ensure that the completed facilities are fitted with safety equipments including fire fighting equipments and fire exits.
- Install smoke detectors in various premises.
- Put fire extinguishers at strategic sites during construction, operation and decommissioning.
- Mount safety signs to indicate the emergency exits, restricted areas and assembly points.
- Ensure adequate water stocks and operational pressures for firefighting during operation.
- Post warning ‘NO SMOKING’ signs at fire prone areas.
- Ensure that all machinery used on the site is properly maintained and inspected before use.
- Provide all employees with suitable safety and protective gears.
- Post warning signs for hazardous or flammable substances.
- Ensure chemicals are stored safely and MSDS are made available.

**Increased water and energy consumption**

- Put off electric machines when not in use.
- Ensure that all machinery used on the site is properly maintained and inspected before use.
- Ensure that all machinery used on the site is properly maintained and inspected before use.
- Place warning signs for hazardous or flammable substances.
- Ensure chemicals are stored safely and MSDS are made available.

**Solid waste generation**

- Provide garbage receptacles.
- Apply an integrated solid waste management approach (reduce, recycle, combustion and sanitary landfilling). 
- Ensure that all machinery used on the site is properly maintained and inspected before use.
- Ensure chemicals are stored safely and MSDS are made available.

**Occupational health and safety**

- Ensure proper solid disposal and collection facilities.
- Provide private waste collection and disposal services.
- Provide dust masks for the personnel in dusty areas.

INVITATION OF PUBLIC COMMENTS

PURSUANT to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed LPG bulk storage and filling depot.

The proposed project entails construction of modern, medium size LPG storage and filling plant in Kisumu.

The project site is located in Kisumu North District in Nyahera Division, at Kanyakwar Sub-location, East Kisumu Location. It lies within 0° 60' 0" South, 34° 45' 0" East coordinates. The proponent purchased about ten plots at Kanyakwar viz Kisumu/Kanyakwar B/17/675 – 685. The plot is located on the Kisumu Vihiga highway opposite the new Mosque and Farm Engineering.

**Invitation of Public Comments**

PURSUANT to regulation 21 of the Environmental Impact Assessment and Audit Regulations, the National Environment Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed TET Tea Factory.

The project comprises construction of a single line CTC factory with a provision for future expansion, administration block, parking area, installation of underground fuel tanks, overhead water tanks and other associated civil works (waste and storm water, and water reticulation drainages).

The proposed TET Tea factory is located at Kimulot location, Kimulot Division of Konoin West District. It neighbours George Williamson Tea Co, the defunct Koruma Estate which is under the jurisdiction and management of Unilever Tea Ltd at the North, and at the south is Kimulot trading centre. The project site is accessible through a murram road 12 km connecting the highway (Konoin -Sotik road).

ENVIRONMENTAL IMPACT ASSESSMENT STUDY REPORT
FOR THE PROPOSED MRIMA HILL NIOBium AND ASSOCIATED RARE EARTHS MINING PROJECT IN MSAMBwENI DISTRICT, COAST PROVINCE

INVITATION OF PUBLIC COMMENTS

Pursuant to regulation 21 of Environmental (Impact Assessment and Audit) Regulations, the National Environmental Management Authority (NEMA) has received an Environmental Impact Assessment Study Report for the implementation of the proposed Mrima Hill Niobium and Associated Rare Earths Mining Project.

The proposed project entails establishment of a Niobium Concentrate Plant on a suitable site within 20km of Mrima Hill. The main components of the proposed project will include on-site mining, access roads, related infrastructures, off-site concentration plant, construction workers compound, and waste tailings dam.

Mrima Hill is situated at around latitude 4°29’S, longitude 39°15’E in Msambweni Constituency of Kwale District on the coastal plain of Kenya, approximately 65km southwest of Mombasa.

The following are the anticipated impacts and proposed mitigation measures:

<table>
<thead>
<tr>
<th>Environmental Impacts</th>
<th>Mitigation Measures</th>
</tr>
</thead>
<tbody>
<tr>
<td>Destruction of natural forest areas</td>
<td>• During preparation of the site and associated infrastructure the actions taken will ensure the future rehabilitation and possible enhancement of the vegetation of Mrima Hill Forest Reserve</td>
</tr>
<tr>
<td>Noise Pollution</td>
<td>• Control movement of construction vehicles.</td>
</tr>
<tr>
<td>Groundwater contamination by oil, grease, and fuel in equipment areas</td>
<td>• Provide “parking” areas for vehicles not being used at any one time;</td>
</tr>
<tr>
<td></td>
<td>• Installation of natural barriers at facility boundaries;</td>
</tr>
<tr>
<td></td>
<td>• Optimisation of internal traffic routing – particularly to minimize vehicle reversing needs (reversing alarm) and to maximize distances to the closest sensitive receptors but also minimizing land-clearing for transport routes.</td>
</tr>
<tr>
<td>Open borrow pits resulting in negative visual impact and potentially a safety hazard</td>
<td>• Plant to comply with WB/IFC noise limits;</td>
</tr>
<tr>
<td></td>
<td>• All equipment to be equipped with silencers or with lagging or specially designed acoustic enclosures;</td>
</tr>
<tr>
<td></td>
<td>• Baseline surveys will be undertaken at the proposed site boundaries to determine and nearest sensitive receptors to benchmark the existing acoustic levels prior to construction</td>
</tr>
<tr>
<td>Risk to health and safety of employees</td>
<td>• Efficient oil and grease traps installed at refueling stations, workshops, fuel storage depots and containment areas etc;</td>
</tr>
<tr>
<td></td>
<td>• Control collection and recycling of lubricants;</td>
</tr>
<tr>
<td></td>
<td>• Toolbox talks (in the colloquial language) to avoid accidental spills and emergency response measures in the case of an accidents</td>
</tr>
<tr>
<td></td>
<td>• Install safety barriers in high-risk locations;</td>
</tr>
<tr>
<td></td>
<td>• Rehabilitate borrow pits to original landscape;</td>
</tr>
<tr>
<td></td>
<td>• Signage in hazardous and risky areas;</td>
</tr>
<tr>
<td></td>
<td>• Good communication with all staff working on the site;</td>
</tr>
<tr>
<td></td>
<td>• Ensuring that communities in vicinity of Mrima Hill do not have access to the mine (apart from those members of the community employed by the mine</td>
</tr>
<tr>
<td></td>
<td>• Ensure all employees provided with PPE – hard hats, gloves, and steel-toed boots.</td>
</tr>
</tbody>
</table>
| | • Use of contrasting coloring on equipment/machinery including all
reflective markings to enhance visibility;
• Ensure all workers are aware of emergency procedures and attend an initial site induction followed by regular site toolbox talks.
• Ensure all employees have safety gear – hard hats, gloves, and steel-toed boots.
• Use of contrasting colouring on equipment/machinery including all reflective markings to enhance visibility;
• Ensure all workers know emergency procedures in place in case of accidents.
• Implement a comprehensive safety and environmental management system.
• Truck routing away from schools and pedestrian routes.

Depletion of natural water sources
• Establish a water balance for the process plant and use this to inform infrastructure design;
• Reuse, recycling and the treatment of process water, where feasible;
• Develop a Sustainable Water Supply Management Plan by managing water use, avoiding depletion of sources and minimizing impacts to water users;
• Build a dam to collect rainfall.
• Storage of topsoil to be used for restoration;
• Efficient planning of access routes and infrastructure to reduce land clearance requirements;
• Planning in response to environmental sensitivities and habitats/species.

Impact on terrestrial environment
• Minimize light pollution outside the boundaries of the facilities to prevent light spill.
• Down-lighting preferable to minimize impact on birds and fauna in the nearby forest.
• Security lighting to be installed for safety requirements to meet relevant regulations.

Light pollution
• Waste areas/dumps should be planned with height specifications based on the nature of the material and local geotechnical considerations to minimize erosion and reduce safety risks;
• Consider potential change of geotechnical properties in dumps.
• Tailings management strategies vary according to site constraints and the nature/type of the tailing.
• Seepage management should be a key consideration in design of tailings storage facilities.
• Natural or synthetic liners to minimize risk of groundwater contamination.
• Design in accordance with flood events;
• Non-hazardous wastes should be collected for recycling or disposal at an approved landfill;
• Specialized providers should handle hazardous waste.

The full report of the proposed project is available for inspection during working hours at:

IMPORTANT NOTICE TO SUBSCRIBERS TO THE KENYA GAZETTE

The following notes are for the guidance of persons submitting “copy” for inclusion in the Kenya Gazette, Supplement, etc.:

1. The Kenya Gazette contains Notices of a general nature which do not affect legislation. They are, therefore, submitted to the Government Printer directly.

2. Legislative Supplement contains Rules and Regulations which are issued by the Central Government. Because of this, they must be submitted to the Government Printer through the office of the Attorney-General.

3. Bill Supplement contains Bills which are for introduction in the National Assembly.

4. Act Supplement contains Acts passed by the National Assembly.

All “copy” submitted for publication should be prepared on one side of an A4 sheet no matter how small the Notice is, each page being numbered and should be typewritten with double spacing. Copy should be clear, legible and contain no alterations.

Particular attention should be paid to the following points:

(i) Signature must be supported by rubber-stamping or typing the name of the signatory in capital letters.

(ii) Dates must be correct and filled in where necessary.

(iii) Care should be taken to ensure that all headings to Notices and references to legislation are up to date and conform with the Revised Edition of the Laws of Kenya.

EXTRACT FROM THE CODE OF REGULATIONS, SECTION D—

Kenya Gazette

“D 34. (1) Communications for the Kenya Gazette should reach the Government Printer not later than 9 a.m. on Friday of the week before publication is desired. The Government Printer will not publish communications received after that hour until the next subsequent issue of the Gazette.

(2) Ministries will be required to pay for the Kenya Gazette and to meet the cost of advertising in it.

It is emphasized that these notes are for guidance only, but it is requested that persons submitting copy for publication first satisfy themselves that such copy is complete in every respect.
