CHAPTER 299
SURVEY ACT

ARRANGEMENT OF SECTIONS

PART I – PRELIMINARY

Section
1. Short title.
2. Interpretation.

PART II – ADMINISTRATION
3. Director of surveys and other officers.
4. Survey office and other offices.
6. Personal liability of Director.

PART III – THE LAND SURVEYORS’ BOARD
7. Establishment of Board.
8. Appointment of secretary and other officers.
9. Duties of Board.

PART IV – LICENSING OF SURVEYORS AND DISCIPLINARY PROCEEDINGS AGAINST LICENSED SURVEYORS
10. Persons eligible to be licensed.
10A. Deleted.
11. Persons entitled to be examined.
12. Exemptions.
13. Application for examination.
14. Examining candidate on oath.
15. Conditions precedent to issue of licence.
16. Register of licensed surveyors.
17. Disciplinary powers of Board.
18. Appeal to High Court.
19. Grant of new licence and termination of suspension.
20. Notice of grant, cancellation, etc., of licence to be published in Gazette.

PART V – THE CONDUCT OF SURVEYS
22. Surveys of land to be conducted under direction of Director.
23. Powers of Director and of surveyors to enter upon land.

PART VI – THE PRESERVATION OF SURVEY MARKS
24. Boundary marks to be shown on plan.
25. Sites of trigonometrical stations and fundamental benchmarks.
26. Blasting of rock within site reserved for fundamental benchmark prohibited.
27. Duty of grantee to ascertain that survey marks shown on plan are in place, and procedure if grantee is unable to find survey marks.
Section
29. Penalty for tampering with survey marks.

PART VII – SURVEY PLANS AND RECORDS
30. All survey plans and records to be deposited with Director and to become property of Government.
31. Correction of errors.
32. Authentication of plans.
33. Director may cancel authentication of plan.

PART VIII – THE STANDING COMMITTEE ON GEOGRAPHICAL NAMES
34. Standing Committee on Geographical Names.
35. Duties of Committee.

PART IX – OFFENCES
36. Unqualified persons forbidden to survey.
37. Penalty for fraudulently procuring licence, falsely pretending to be licensed, and allowing unlicensed surveyor to practise.
38. Penalty for obstructing surveyors.

PART X – MISCELLANEOUS PROVISIONS
39. Authenticated plans to be sufficient compliance with law requiring notices of boundaries, etc.
40. Distribution of photographic or lithographic copies of plan authenticated.
41. Provisions regarding authenticated plans.
42. Aerial surveys.
43. Proof of plans.
44. Inspection of plans.
45. Regulations.

PART XI – REPEAL AND SAVINGS
46. Repeal of Ordinance 22 of 1951 and saving.
47. Amendment of Cap. 24 and Cap. 27.
CHAPTER 299

SURVEY ACT

[Date of assent: 14th November, 1961.]

[Date of commencement: 31st December, 1961.]

An Act of Parliament to make provision in relation to surveys and geographical names and the licensing of land surveyors, and for connected purposes

PART I – PRELIMINARY

1. Short title

This Act may be cited as the Survey Act.

2. Interpretation

In this Act, unless the context otherwise requires—

“Board” means the Land Surveyors’ Board established under section 7 of this Act;

“Director” means the Director of Surveys appointed under section 3 of this Act;

“Government surveyor” means any officer of the Survey Department of the Government who is authorized by the Director to perform any survey duty under this Act;

“grant” means any conveyance lease or licence of unalienated Government Land for a period exceeding one year made on behalf of the Government under the Government Lands Act (Cap. 280);

“grantee” means the recipient of any grant;

“licensed surveyor” means a surveyor duly licensed as a surveyor under or by virtue of the provisions of this Act;

“plan” includes a map, diagram or aerial photograph approved by the Director as suitable for survey purposes;

“survey mark” means any trigonometrical station, fundamental benchmark, bench mark, boundary beacon, peg, picket mark or pole, whether above or below the surface of the ground, which is fixed, placed or set up by, or under the direction of a surveyor for the purpose of any survey under this Act;

“surveyor” means a Government surveyor or a licensed surveyor.

[L.N. 303/1964, Sch., Act No. 10 of 1969, Sch.]
PART II – ADMINISTRATION

3. Director of surveys and other officers

   (1) There shall be appointed a Director of Surveys and such other officers as may be deemed to be necessary for the purposes of this Act.

   (2) The Director may delegate in writing all or any of his powers, duties or functions under the provisions of this Act, or of any regulations made thereunder, either generally or specially to any officer appointed under subsection (1) of this section and may at any time revoke or vary any such delegation:

Provided that no such delegation shall be deemed to divest the Director of all or any of his powers, duties or functions, and he may, if he thinks fit, exercise and perform such powers, duties and functions notwithstanding the fact that he has so delegated them.

[L.N. 303/1964, Sch.]

4. Survey Office and other offices

   The principal office of the Director (in this Act referred to as the Survey Office) shall be at Nairobi, but there may be established such other offices at such places as the Director may from time to time determine.

5. Seal of Survey of Kenya

   (1) The Director shall have and use a seal of office bearing the impression of the badge of the Survey Department and having inscribed thereon “Survey of Kenya”, and the imprint of such a seal shall be valid whether impressed or made in wax, ink or any other substance.

   (2) The seal of the Survey of Kenya shall not be used or affixed except by the Director or by some person authorized by the Director in writing in that behalf.

6. Personal liability of Director

   Neither the Director nor any officer appointed by virtue of subsection (1) of section 3 shall be personally liable to any action or other proceeding for or in respect of any act or matter done or omitted without negligence in good faith in the exercise or performance, or the purported exercise or performance, of any powers, duties or functions conferred by this Act or by any regulations made thereunder.

PART III – THE LAND SURVEYORS’ BOARD

7. Establishment of Board

   (1) There shall be a Board, to be known as the Land Surveyors’ Board, which shall consist of—

   (a) the Director, who shall be chairman of the Board;

   (b) seven surveyors employed in the public service being licensed surveyors or holders of an East African Land Survey Certificate and who are full members of the Institution of Surveyors of Kenya (Chapter of Land Surveyors) appointed from time to time by the Minister as follows—

      (i) two of them on the advice of the Permanent Secretary to the Ministry for the time being responsible for matters relating to land survey;
(ii) four of them on the advice of each of the Permanent Secretaries of the Ministries for the time being responsible for transport, local government, forestry and housing; and

(iii) one of them on the advice of the Vice-Chancellor of the University of Nairobi;

(c) four licensed surveyors in private practice elected by licensed members of the Institution of Surveyors of Kenya (Chapter of Land Surveyors) who shall hold office for two years and shall be eligible for re-election:

Provided that of the four surveyors so elected two shall retire at the end of one year from the date one which they were elected and the order of retirement shall in default of agreement with them, be determined by lot.

(2) The Board may, from time to time, elect one of its members to be deputy chairman, who shall, in the absence or inability to act of the chairman, perform the duties of the chairman.

(3) Subject to this Act, and to any special or general directions by the Minister, the, Board shall regulate its own procedure.

[Act No. 10 of 1969, Sch., Act No. 4 of 1987, s. 2.]

8. Appointment of secretary and other officers

The Board may, from time to time, appoint a secretary and such examiners and other officers as may be necessary for carrying out the duties of the Board, and all such persons shall hold office during the pleasure of the Board.

9. Duties of Board

The duties of the Board shall be—

(a) to conduct the examination of candidates for admission as licensed surveyors in accordance with the provisions of this Act;

(b) to grant licences in accordance with the provisions of this Act;

(c) to keep a register of all licensed surveyors;

(d) to take disciplinary proceedings against licensed surveyors in accordance with the provisions of this Act;

(e) to hear and determine any dispute between any licensed surveyor and his client as to the fees charged by the licensed surveyor;

(f) to hear and determine any dispute between the Director and a licensed surveyor as to the application of any regulations in which provision is made for reference to the Board;

(g) to advise the Director on all matters relating to cadastral surveys in connexion with the registration of land or of title to land under any written law for the time being in force relating to the registration of land or of title to land.

[Act No. 10 of 1969, Sch.]
PART IV – LICENSING OF SURVEYORS AND DISCIPLINARY PROCEEDINGS AGAINST LICENSED SURVEYORS

10. Persons eligible to be licensed

No person shall be licensed under this Act unless he is qualified as hereinafter provided; and every person who is so qualified shall be entitled, on payment of the prescribed fee, to be granted a licence by the Board in the prescribed form.

10A. Repealed by Act No. 9 of 2000, s. 82.

11. Persons entitled to be examined

No person shall be examined for a licence to practise as a surveyor unless—

(a) he has previously practised land surveying regularly and faithfully for such period as the Board may require, in the Survey of Kenya or with a licensed surveyor in Kenya or in one of the countries approved for the purposes of paragraph (d) of subsection (1) of section 12 of this Act, and he produces either a statutory declaration from the Director or from such licensed surveyor, as the case may be, in such form as may be prescribed, or such other evidence as may satisfy the Board, that he has so served for the period required by the Board; or

(b) he satisfies the Board that he has pursued suitable courses of study in land surveying and mathematics and he has had practical experience in land surveying.

12. Exemptions

(1) Any person who—

(a) was duly registered as a licensed surveyor in accordance with the provisions of any written law relating to the registration of surveyors in force at any time before the commencement of this Act; or

(b) is the holder of an East African Land Survey Certificate; or

(c) has taken a degree in land surveying from a university recognized by the Board, passed the Kenya land law examination and has had not less than two years practical experience with the Survey of Kenya or with a licensed surveyor to the satisfaction of the Board; or

(d) is the holder of a licence to practise as a surveyor in any country which the Minister may, by notice in the Gazette, approve; or

(e) is the holder of the qualification of Fellow or Professional Associate of the Royal Institute of Chartered Surveyors in subdivision V (Land Surveying); or

(f) has complied with the provisions of paragraph (b) of section 11 of this Act,

shall, upon the production of such evidence thereof as may be prescribed including evidence of full membership of the Institution of Surveyors of Kenya (Chapter of Land Surveyors), and subject to the provisions of subsection (2) be exempted from the whole examination or from examination in any subject, in accordance with the directions of the Board.
(2) A person holding any of the qualifications mentioned in paragraph (d) or (e) of this section, shall not be exempted from examination unless—

(a) he satisfies the Board that he has had field experience in land surveying; and

(b) he carries out to the satisfaction of the Board, a trial survey; and

(c) he satisfies the Board that he is capable of conducting land surveys in accordance with the provisions of this Act and of any regulations made thereunder.

[L.N. 303/1964, Sch., Act No. 10 of 1969, Sch., Act No. 4 of 1987, s. 3.]

13. Application for examination

(1) An application for examination shall be made to the secretary of the Board in writing at least one month prior to the date on which such examination is to take place, and such application shall be in the prescribed form and shall be accompanied by the prescribed fee, which fee shall be refunded if the candidate is not allowed to be examined.

(2) All fees paid under this section shall be paid into the consolidated fund.

14. Examining candidate on oath

The Board may require the attendance of any person who applies for examination for admission as a licensed surveyor, and may examine or question such person upon oath, affirmation or otherwise as to his actual practice in the field and other matters relevant thereto, and for such purpose any member of the Board may administer an oath or affirmation.

15. Conditions precedent to issue of licence

Except as otherwise provided in this Act, no person shall receive a licence from the Board authorising him to practise as a licensed surveyor unless—

(a) he has attained the age of twenty-one years; and

(b) he has passed the prescribed examination to the satisfaction of the Board or has been exempted therefrom; and

(c) he has complied with the provisions of this Act.

16. Register of licensed surveyors

The Board shall cause a register to be kept which shall contain the names, addresses and qualifications of all persons to whom licences have been granted, the date upon which each such licence was granted and any other particulars which may be prescribed.

17. Disciplinary powers of Board

(1) Where, after due inquiry by the Board, a licensed surveyor has been found to have been guilty of professional misconduct, or, having been convicted of a criminal offence, is found by the Board to be unfit to practise, the Board may—

(a) cancel the licence granted to such licensed surveyor; or
(b) suspend the licence for a period not exceeding three years; or
(c) impose a fine not exceeding one thousand shillings on such licensed surveyor; or
(d) reprimand such licensed surveyor.

(2) Upon any inquiry held by the Board under subsection (1) of this section, the person whose conduct is being inquired into shall be afforded an opportunity of being heard, either in person or by an advocate.

(3) For the purpose of proceedings at any inquiry held by the Board, the Board may administer oaths and affirmations and may, subject to the provision of any regulations made under this Act, enforce the attendance of persons as witnesses and the production of books and documents.

(4) Any person who, having been summoned by the Board to attend before it, fails to attend, or fails to produce any books or documents which he is required to produce, shall be guilty of an offence and liable to a fine not exceeding two hundred shillings.

18. Appeal to High Court

Any person aggrieved by a decision of the Board under section 17, or under subsection (4) of section 31, may, within one month after the date of the decision, appeal to the Supreme Court against the decision, and, on any such appeal, the Supreme Court may give such directions in the matter as it thinks proper, including directions as to the costs of the appeal, and no appeal shall lie from an order of the High Court under this section.

19. Grant of new licence and termination of suspension

Where an order has been made for the revocation of the licence granted to any person or for suspending such a licence, the Board may either of its own motion or on the application of the person concerned, and in either case after holding such inquiry as the Board thinks fit, grant a new licence and cause the name of that person to be restored to the register, or, as the case may be, terminate the suspension of the existing licence and registration, either without fee or on payment of such fee, not exceeding the licence fee, as the Board may determine.

20. Notice of grant, cancellation, etc., of licence to be published in Gazette

Notice of the grant, revocation or suspension of any licence, or of the termination of the suspension thereof, under this Part shall be published in the Gazette.

PART V – THE CONDUCT OF SURVEYS

21. Duties of licensed surveyors and non-liability of the Government

(1) Every surveyor shall carry out every survey undertaken by him in such manner as will ensure that the survey accords in all respects with the provisions of this Act and any regulations made thereunder, and shall be responsible for the correctness and completeness of every survey carried out by him or under his supervision:
Provided that the Director may, in his discretion in the case of any particular survey, by notice in writing to the surveyor, direct that the standards of accuracy prescribed by such regulations shall be relaxed in such manner, to such extent and subject to such conditions as he shall specify in the notice.

(2) Neither the Government nor any public officer shall be liable for any defective survey, or any work appertaining thereto, performed by a licensed surveyor, notwithstanding that any plan relating to such survey or work has been authenticated in accordance with the requirements and provisions of this Act or accepted for registration under any written law for the time being in force relating to the registration of transactions in or of title to land.

22. Surveys of land to be conducted under direction of Director

Any survey of land for the purposes of any written law for the time being in force relating to the registration of transactions in or of title to land (other than the first registration of the title to any land made in accordance with the provisions of the Land Consolidation Act (Cap. 283) or the Land Adjudication Act (Cap. 284)) shall be carried out under and in accordance with the directions of the Director.

23. Powers of Director and of surveyors to enter upon land

(1) The Director or any surveyor, or any person authorized in writing by the Director in that behalf either generally or specially, may enter upon any land, with such assistants as may be necessary, for the purpose of—

(a) making or supervising any survey or resurvey; or
(b) affixing or setting up thereon or therein any survey mark; or
(c) inspecting any survey mark; or
(d) altering, repairing, moving or removing any survey mark; or
(e) doing anything necessary for carrying out any of the aforesaid purposes; or
(f) examining or inspecting the conduct of any survey.

(2) Before so entering upon any land, the Director or other surveyor or person duly authorized shall, whenever practicable, give reasonable notice to the owner or occupier of the land of his intention to enter thereon, and shall, on so entering, produce written evidence of his authority to any person reasonably requiring the same.

(3) Compensation shall be paid to the owner of any trees or crops cut or damaged in the exercise of any of the powers conferred by this section, and such compensation shall be calculated and paid in the prescribed manner.

PART VI – THE PRESERVATION OF SURVEY MARKS

24. Boundary marks to be shown on plan

Every trigonometrical station, fundamental benchmark and boundary beacon erected or placed for the purpose of defining the boundaries of any holding or land shall be shown on the plan (if any) attached to, or referred to in, any
document or instrument purporting to confer, declare, transfer, limit, extinguish or otherwise deal with or affect any right, title or interest, whether vested or contingent to, in or over such holding or land, being a document or instrument which is required to be registered, or is ineffectual until registered, under any written law for the time being in force relating to the registration of transactions in or of title to land.

25. Sites of trigonometrical stations and fundamental benchmarks

Every trigonometrical station or fundamental benchmark shall be deemed, for the purposes of this Act and of any regulations made thereunder, to comprise the land within twenty feet of the centre-mark of such station or within twenty feet of the centre of the pillar or of such fundamental benchmark, as the case may be, together with a right-of-way to and from the same.

26. Blasting of rock within site reserved for fundamental benchmark prohibited

(1) No person shall carry out rock-blasting operations within the area of the land reserved for any fundamental benchmark.

(2) Any person who contravenes the provisions of this section shall be guilty of an offence and liable to a fine not exceeding three thousand shillings or to imprisonment for a term not exceeding six months or to both.

27. Duty of grantee to ascertain that survey marks shown on plan are in place, and procedure if grantees unable to find survey marks

(1) It shall be the duty of every grantee to ascertain, within sixty days after he has received his grant, that the survey marks shown on any plan attached to his grant or referred to therein are in place as shown on the plan.

(2) If a grantee notifies the Director in writing that he is unable to find the survey marks shown on the plan attached thereto and referred to therein, and deposits with the Director a sum which, in the estimation of the Director, is sufficient to cover the cost of the inquiry, the Director shall inquire into the matter.

(3) If as a result of any such inquiry the Director finds that the survey marks are not in place as shown on the plan, he shall cause survey marks to be erected or placed in accordance with the plan, and, in such case, the sum deposited shall be refunded to the grantee.

(4) If as a result of such inquiry the Director finds that the survey marks are in place as shown on the plan, the sum deposited, or such portion thereof as shall be sufficient to cover the cost of such inquiry, shall be forfeited and paid into the consolidated fund.

28. Responsibility for protection of survey marks

(1) Every owner and occupier of land shall take all reasonable measures to protect every survey mark erected or placed on the land owned or occupied by him.

(2) The owner and occupier of land shall pay to the Director the cost of restoring any survey mark erected or placed on the land owned or occupied by
him (including the cost of any survey made for that purpose) which has been removed, destroyed, displaced, defaced, mutilated, obliterated or broken, or the position of which has been altered, unless any other person has been convicted of an offence under section 29 in respect of that survey mark; and such cost shall be a civil debt recoverable summarily.

(3) Where a survey mark is common to the land of two or more owners and occupiers, the cost of restoring any such survey mark, as provided by subsection (2), shall be divided equally between them.

29. Penalty for tampering with survey marks

Any person, not being duly authorized so to do, who takes away, is found in possession of, removes, destroys or displaces, or alters the position of, any survey mark, or wilfully defaces, mutilates, obliterates or breaks any survey mark, shall be guilty of an offence and liable—

(a) if such act was done with intent to defraud, to imprisonment for a term not exceeding three years; or

(b) in any other case, to a fine not exceeding three thousand shillings or to imprisonment for a term not exceeding six months or to both such fine and such imprisonment,

and, in addition to or instead of any such penalty, the court convicting a person of any such offence may order that person to pay to the Director the cost of restoring such survey mark (including the cost of any survey made for that purpose).

PART VII – SURVEY PLANS AND RECORDS

30. All survey plans and records to be deposited with Director and to become property of Government

(1) Every surveyor who executes any survey in accordance with the provisions of this Act and of any regulations made thereunder shall send to the Director all plans, field notes and computations relating thereto, and all such plans, field notes and computations shall be deposited in the Survey Office and shall become the property of the Government.

(2) No plan deposited in the Survey Office in accordance with subsection (1) shall be altered or amended in any way without the permission of the Director.

31. Correction of errors

(1) The Director, or a Government surveyor authorized in writing by the Director in that behalf, may at any time undertake such field and office checks on the survey work of a licensed surveyor as he thinks fit.

(2) The Director, or a Government surveyor duly authorized to authenticate a plan under section 32 of this Act may, by notice in writing, instruct any licensed surveyor to correct at his own expense within a time specified in such notice any error made by him in the survey represented by the plan submitted for authentication:

Provided that such notice shall not be sent more than twelve months after the date on which the plan was sent to the Director under section 30.
(3) In the event of such licensed surveyor refusing or neglecting within the time specified to correct such error, it shall be lawful for the Director to undertake such correction and to recover the whole cost of such correction from the licensed surveyor concerned.

(4) If such licensed surveyor refuses or neglects to pay the cost of the correction referred to in subsection (3) within fourteen days of the same having been demanded of him, the Director may report the facts to the Board for disciplinary action, and after due inquiry the Board may order such licensed surveyor to pay the cost of correction to the Director; and if such licensed surveyor refuses or neglects to comply with such order within one month after the date of the order the Board may, subject to the provisions of section 18, of this Act, suspend the licence of the licensed surveyor until the cost of correction has been paid, or for a period not exceeding three years, whichever he thinks fit.

32. Authentication of plans

No land shall be deemed to have been surveyed or resurveyed until the plan thereof has been authenticated by the signature of the Director or of a Government surveyor authorized in writing by the Director in that behalf, or by the affixing of the seal of the Survey of Kenya.

33. Director may cancel authentication of plan

(1) Where, before a document or instrument to which an authenticated plan is attached, or in which reference to such a plan is made, is registered—

(a) the plan is found to be inaccurate by reason of any error or omission in the survey; or

(b) the plan does not conform with the terms and conditions subject to which permission to subdivide the land to which the plan relates has been given,

the Director may cancel the authentication of such plan and may recall any copies which may have been issued, and in every case the provisions of section 31 shall apply.

(2) The Director shall forthwith upon the cancellation of the authentication of any plan notify in writing—

(a) the registered owner of the land to which such plan relates or, in the case of Government land, the Commissioner of Lands; and

(b) the surveyor by whom the survey was executed; and

(c) the registrar.

(3) For the purposes of this section, “the registrar” means—

(a) in the case of land registered under the Government Lands Act (Cap. 280), the Principal Registrar of Government Lands;

(b) in the case of land registered under the Land Titles Act (Cap. 282), the Principal Registrar;

(c) in the case of land registered under the Registration of Titles Act (Cap. 281), the Principal Registrar of Titles;
(d) in the case of land registered under the Registered Land Act (Cap. 300), the Chief Land Registrar;

(e) deleted by L.N. 303/1964.; and

(f) in the case of any document registered under the Registration of Documents Act, the Principal Registrar of Documents (Cap. 285).

[L.N. 303/1964, Sch., Act No. 10 of 1969, Sch.]

PART VIII – THE STANDING COMMITTEE ON GEOGRAPHICAL NAMES

34. Standing Committee on Geographical Names

(1) There shall be a Standing Committee on Geographical Names (hereinafter referred to as the “Committee”) which shall consist of—

(a) the Director, who shall be chairman of the Committee;

(b) ten other members appointed by the Minister for such period as he may direct.

(2) The chairman shall appoint a public officer to be secretary of the Committee.

35. Duties of Committee

(1) It shall be the duty of the Committee to advise the Minister as to the spelling of all names on maps of Kenya, and in so doing the Committee shall have due regard to historical, orthographical and ethnic considerations.

(2) There shall be published in such manner, and as often as the Minister may direct, lists or maps containing the approved spelling of all such names.

[Act No. 10 of 1969, Sch.]

PART IX – OFFENCES

36. Unqualified persons forbidden to survey

(1) No person, other than a surveyor, shall—

(a) survey any holding or land for the purpose of preparing any plan which is attached to, or is referred to in, any document or instrument purporting to confer, declare, transfer, limit, extinguish or otherwise deal with or affect any right, title or interest, whether vested or contingent to, in or over any holding or land, being a document or instrument which is required to be registered, or is ineffectual until registered, under any written law for the time being in force relating to the registration of transactions in or of title to land; or

(b) perform any survey which affects or may affect the delimitation of the boundaries, or the location of survey marks, of any holding or land registered or to be registered under any written law for the time being in force relating to the registration of land or of title to land.

(2) Any person who contravenes any of the provisions of subsection (1) shall be guilty of an offence and liable to a fine not exceeding three thousand shillings or to imprisonment for a term not exceeding six months or to both.
37. Penalty for fraudulently procuring licence, falsely pretending to be licensed, and allowing unlicensed surveyor to practise

Any person who—

(a) fraudulently procures or attempts to procure himself or any other person to be granted a licence by the Board under this Act; or

(b) not being a licensed surveyor, falsely pretends to be such, or falsely takes or uses any title or description implying, whether in itself or in the circumstances in which it is taken or used, that such person is a licensed surveyor or is qualified to practise as such; or

(c) being a licensed surveyor, allows an unlicensed person to perform any survey to which section 22 applies,

shall be guilty of an offence and liable to a fine not exceeding three thousand shillings or to imprisonment for a term not exceeding six months or to both.

[Act No. 10 of 1969, Sch.]

38. Penalty for obstructing surveyors

Any person who wilfully obstructs or hinders any surveyor, or any assistant or servant of such surveyor, in the performance of any duty or the exercise of any power under this Act shall be guilty of an offence and liable to a fine not exceeding one thousand shillings or to imprisonment for a term not exceeding two months or to both.

PART X – MISCELLANEOUS PROVISIONS

39. Authenticated plans to be sufficient compliance with law requiring notices of boundaries, etc.

Where the provisions of any written law require that for the purposes of any written law a notice shall be published in the Gazette or otherwise specifying the boundaries of any land or area, or the situation and extent of any land or area, or particulars necessary to identify any land or area, or defining or designating the boundaries or limits of any land or area, it shall be sufficient if such land or area is described by reference in such notice to a plan of such land or area authenticated, identified and deposited in the Survey Office in accordance with the provisions of section 41.

40. Distribution of photographic or lithographic copies of plan authenticated

The authority giving a notice which refers to a plan authenticated, identified and deposited in the Survey Office may direct that so many photographically produced (or, if a larger number are required, lithographically produced) copies of such plan as he may require shall be made and distributed to the District Commissioner of the district in which the land or area to which such plan refers is situated, to the Commissioner of Lands and to such other public officer or officers as he shall specify.
41. Provisions regarding authenticated plans

(1) A plan shall be deemed to be authenticated and identified for the purposes of sections 39 and 40 if—

(a) it is authenticated, by the signature of the Director or of a Government surveyor authorized in writing by the Director in that behalf and by the signature of the authority by whom the notice is given, to be the land or area to which the notice refers; and

(b) it is identified by a reference number.

(2) Every such authenticated and identified plan shall be deposited in the Survey Office.

42. Aerial surveys

(1) Any person who intends to carry out any aerial photography for use in mapping or similar purpose shall, before carrying out the same, give to the Director in writing not less than one month's notice of his intention so to do.

(2) Any person who has carried out any aerial photography for use in mapping or similar purpose shall, if the Director so requires in writing—

(a) produce to the Director for his inspection all of the photographs thereby produced or such of them as the Director may specify; and

(b) supply to the Director, at the Director's cost, such copies as the Director may require of such photographs:

Provided that the supply of photographs to the Director under this section shall not in any way affect the copyright therein of the person supplying them or other than the owner of such copyright.

(3) Any person who fails to comply with the provisions of subsection (1) or subsection (2) shall be guilty of an offence and liable to a fine not exceeding two thousand shillings.

43. Proof of plans

(1) All plans authenticated under this Act, purporting to be signed by the Director, or by a Government surveyor authorized by the Director in that behalf, or to be sealed with the seal of the Survey of Kenya, shall be presumed, until the contrary is proved, to have been signed by the Director, said, or or by a Government surveyor authorised as aforesaid, to have been sealed with the seal of the Survey of Kenya, as the case may be.

(2) The provisions of subsection (1) shall extend to plans approved before the commencement of this Act under section 37 of the Survey Ordinance, 1951 (No. 22 of 1951) (now repealed).

44. Inspection of plans

Any person may, at such times as may be notified by the Director, inspect any boundary plan, referred to in any notice in the Gazette, which is in the possession of the Survey Department.
45. Regulations

(1) Subject to the provisions of subsection (2), the Minister may make regulations prescribing—

(a) the manner in which surveys shall be carried out and the manner and form in which the records of surveys shall be prepared and furnished to the Director;

(b) the standard of accuracy which shall, subject to any direction given under the proviso to subsection (1) of section 21 be achieved, and the limit of error which shall, subject as aforesaid, be allowed, in surveys and resurveys of land;

(c) the nature, form and dimensions of survey marks, the manner of marking the same for identification and the manner of their construction, erection, protection, maintenance and repair;

(d) the testing of surveying instruments and of measuring tapes to be used in the survey of land;

(e) the unit of measurement which shall be used on plans;

(f) the charges to be made for the making of any survey by the Survey Department;

(g) the charges to be made for the authentication under this Act of plans submitted by a licensed surveyor;

(h) the fees or charges to be paid in respect of any plan or document issued, or any act or matter required or permitted to be performed or dealt with, in the Survey Office;

(i) the circumstances in which any person may inspect any unpublished plan in the possession of the Survey Department;

(j) the manner of keeping the register of licensed surveyors and prescribing the particulars which shall be recorded therein;

(k) the evidence which shall be produced and the conditions which shall be fulfilled by any person applying for a licence under this Act;

(l) the method of examination of persons desirous of qualifying for a licence, and the syllabus of subjects therefor; the fees payable for examination; and the nature and period of previous service or training required;

(m) what certificates of examination, diplomas, degrees, licences or titles, other than those prescribed by this Act, shall be recognized by the Board for the purpose of exempting a person from passing the whole or any part of any examination of the Board;

(n) the procedure for granting licences under this Act;

(o) the procedure which shall be followed by the Board in hearing and determining any dispute between a licensed surveyor and his client as to the fees charged by the licensed surveyor;

(oa) the procedure which shall be followed by the Board in hearing and determining any dispute between the Director and a licensed surveyor as to the application of any regulation in which provision is made for reference to the Board;
(p) the procedure which shall be followed by the Board in any inquiry held under section 17 or section 19 of this Act;

(pa) the fees or charges to be paid in respect of the hearing of any dispute by the Board;

(q) the manner in which the attendance of witnesses and the production of books and documents at such an inquiry shall be obtained and enforced;

(r) matters relating to the direction and guidance of licensed surveyors;

(s) a power for the Director, after consultation with the Board, to require calculations to be submitted in such manner as he may direct;

(t) the fees to be charged by a licensed surveyor in respect of work done;

(u) anything which under this Act may be prescribed, and generally as to any matter appertaining to the surveying of land, and for carrying out the intent and purpose of this Act.

(2) Regulations prescribing any of the matters specified in paragraphs (j) to (t) (inclusive) of subsection (1) shall be made only after consultation with the Board.

[Act No. 10 of 1969, Sch.]

PART XI – REPEAL AND SAVINGS

46. Repeal of Act 22 of 1951 and saving

(1) The Survey Act, 1951, is hereby repealed.

(2) All officers, offices, appointments, records, plans, approvals, licences, registers, registrations and generally all acts of authority which originated under the Survey Act, 1951 (No. 22 of 1951) (now repealed), and were subsisting or in force immediately before the commencement of this Act shall enure for the purposes of this Act according to the tenor thereof as fully and effectually as if they had originated under the corresponding provisions of this Act, and accordingly shall, where necessary, be deemed to have so originated; and, for the purposes of any written law, any approval given by the Director in accordance with any provision of the Survey Act, 1951 (No. 22 of 1951) (now repealed), shall be deemed to be an authentication made in accordance with the provisions of this Act.

(3) All matters and proceedings commenced under the Survey Act, 1951 (now repealed), and pending or in progress immediately before the commencement of this Act, may be continued, completed and enforced under this Act.

47. Amendment of Cap. 24 and Cap. 27

Sections 343 and 344 of the Penal Code, and the items relating to the said sections in the First Schedule to the Criminal Procedure Code, are repealed.

SURVEY REGULATIONS, 1994

ARRANGEMENT OF REGULATIONS

PART I – PRELIMINARY

Regulation
1. Citation.
2. Interpretation.

PART II – THE LAND SURVEYORS BOARD
3. Quorum of the Board.
4. Place of meetings, and minutes.
5. Expenses of members.
6. Register of Surveyors.

PART III – THE STANDING COMMITTEE ON GEOGRAPHICAL NAMES
7. Chairman and quorum.
8. Meetings.
9. List of names to be sent to Minister.
10. Expenses of members.

PART IV – EXAMINATIONS AND ISSUE OF LICENCES
11. Holding of examinations.
13. Persons entitled to be examined.
15. Alternative qualifications.
17. Pass mark.
18. Conditions applicable.
19. Fees.
20. Conduct of examinations.

PART V – REGULATIONS AFFECTING ALL SURVEYS MADE UNDER SECTION 22 OF THE ACT
22. Disputes.
23. Units of measurement.
26. Presentation of surveys.
27. Permissible errors of measurement.
28. Checking of surveys.
29. Information prior to survey.
30. Prior approval by statutory authorities.
31. Authority for entry upon land.
32. Refusal of entry.
Regulation

33. Employment of approved assistants.
34. Fees chargeable by the Director.
35. Fees chargeable by licensed surveyors.
36. Application to have plan prepared from existing records.

PART VI – SURVEY MARKS, BOUNDARY BEACONS AND BOUNDARIES

37. Design and specification of survey marks.
38. Placement of survey marks.
40. Line beacons and river beacons.
41. Placing beacons on boundary line.
42. Beacons placed from computed data.
43. Boundaries adjoining trust land or forest areas.
44. When beacons cannot be placed.
45. Damaged beacons cannot be repaired.
46. Trigonometrical station to be repaired.
47. Missing beacons.
48. Re-establishment of missing beacons.
49. Redundant beacons.
50. Surveys and re-establishment of boundaries.

PART VII – SURVEYS PERFORMED BY TRIANGULATION, TRILATERATION, TRAVERSE AND AIR SURVEY

51. Guiding principle.

Triangulation and Trilateration

52. Geodetic and secondary triangulation.
53. Lower order triangulation.
54. Tertiary and minor triangulation.
55. Instruments used for triangulation and trilateration.
56. Method of taking triangulation.
57. Fixing of beacons.
58. Isolated surveys.

Traverse Surveys

59. Geodetic and secondary traverses.
60. Lower order traverse.
61. Angular measurement of traverses.
62. Linear measurements of traverses.
63. Surveys of curvilinear boundaries.
64. Road and railway reserves.
65. Swinging or hanging traverses.
66. Verification of points of departure and termination of traverses.
67. Verification of datum stations.

Air Survey

68. Air survey.
PART VIII – FIELD NOTES

Regulation
69. Field notes to be on special forms.
70. Recording of triangulation observations.
71. Recording of traverse observations.

Topographical Features
72. Topographical features.
73. Method of entering field notes.
74. Erasures and corrections.
75. Nomenclature.
76. Cover and page index.
77. Unorthodox methods.

PART IX – COMPUTATIONS
78. Computations to be in special forms.
79. Method of entering computations.
80. Triangulation and trilateration.
81. Traverse computations.
82. Independent checks to be made.
83. Method of computing areas.
84. Degree of accuracy for computing areas.
85. Presentation of computation.

PART X – PLANS
86. Plans to be drawn on special forms.
87. Scales to be used.
88. Plotting of curvilinear boundaries.
89. Plotting by co-ordinates.
90. General rules for plotting.
91. Abutting boundaries.
92. Co-ordinates and numerical data.
93. Triangulation and trilateration charts.
94. Colour and style of printing.
95. Topographical features.
96. Erasures and corrections.
97. Certificates.
98. Authentication by Director.

PART XI – DEED PLANS
99. Deed plans to be drawn on special forms.
100. General rules for deed plans.
101. Numerical data.
102. Topographical features.
103. Abutting boundaries.
104. Areas.
105. Erasures and corrections.
Regulation

106. Locality index number.
107. Name of surveyor authentication.
108. Authentication.
109. Cancellation of deed plan.

PART XII – GOVERNMENT LAND SURVEYS

110. Coast foreshore reservation.
111. Tidal river reservation.
112. Lake reservations.
113. Defining of reservation boundaries.
114. Defining swamp boundaries.

PART XIII – MISCELLANEOUS

115. Written evidence for the Board.
116. Public access to maps and plans.
117. Government copyright.
118. Repeal of regulations.

SCHEDULES

FIRST SCHEDULE – QUALIFICATIONS GIVING EXEMPTION FROM EXAMINATION IN PRESCRIBED SUBJECTS IN THE TRIAL SURVEY AND LAW EXAMINATIONS FOR THE KENYA LAND SURVEYORS LICENCE

SECOND SCHEDULE – EXAMINATIONS FOR ADMISSION AS A LICENSED SURVEYOR

THIRD SCHEDULE – PRESCRIBED FORMS

FOURTH SCHEDULE – COMPETENT AUTHORITIES FOR THE SUBDIVISIONS OF LAND

FIFTH SCHEDULE – FEES PAYABLE FOR SURVEYS EXECUTED BY THE SURVEY OF KENYA

SIXTH SCHEDULE – FEES PAYABLE FOR THE AUTHENTICATION OF PLANS SUBMITTED TO THE DIRECTOR FOR APPROVAL

SEVENTH SCHEDULE – FEES CHARGEABLE FOR DOCUMENTS AND MATERIALS ISSUED AND OTHER SERVICES RENDERED BY THE SURVEY OF KENYA

EIGHTH SCHEDULE – SCALE OF FEES CHARGEABLE BY A LICENSED SURVEYOR FOR SURVEYS MADE BY HIM

NINTH SCHEDULE – CERTIFICATE FOR APPROVED ASSISTANTS
SURVEY REGULATIONS, 1994

REGULATIONS UNDER SECTION 45

PART I – PRELIMINARY

1. Citation

These Regulations may be cited as the Survey Regulations, 1994.

2. Interpretation

In these Regulations, except where the context otherwise requires—

“approved assistant” means any person other than a licensed surveyor who assists a licensed surveyor in the execution of field surveys, but does not include skilled and semi-skilled chainmen and labourers.

“forest area” means any area of land declared under section 4 of the Forests Act (Cap. 385) to be a forest area;

“survey” means any survey made under the Act.

PART II – THE LAND SURVEYORS BOARD

3. Quorum of the Board

(1) The quorum for a meeting of the Board shall be one half of all the gazetted members, of whom the chairman, or deputy chairman, shall be one.

(2) At every meeting of the Board each member shall have the right to one vote on any matter under discussion:

Provided that in the event of the voting for and against being equal the chairman shall have a casting vote.

4. Place of meetings, and minutes

(1) The Board shall normally meet four times in a year in the Survey Office in Nairobi:

Provided a special meeting of the Board may be called by the Chairman or by at least one-half of the members of the Board.

(2) The Secretary shall keep minutes of all meetings of the Board in a minute book kept for that purpose, which shall be preserved in the Survey Office when not in use.

(3) The Secretary shall notify every member of the Board of every meeting not less than fourteen days before the date fixed for the meeting.

5. Expenses of members

(1) The members of the Board and the secretary may claim travelling and subsistence expenses for attendance at meetings, in accordance with these Regulations and at the rates for the time being in force in respect of such allowances to Government officers.

(2) All claims under paragraph (1) shall be made in such form as the Director may determine, and shall be addressed to the Secretary.
6. Register of Surveyors

There shall be a register of all surveyors registered under the Act which shall be deposited for safe keeping in the Survey Office, and the register shall contain the following particulars of the surveyors so registered—

(a) name and permanent address;
(b) a short statement of all professional examinations passed, together with relevant numbers of certificates of examination, diplomas, degrees, licences and titles;
(c) the date of passing examinations of the Board; and
(d) a record of any offence committed by the surveyor under the Act, with, in every case, the Board’s order and the number of any notification in the Gazette in connection therewith.

PART III – THE STANDING COMMITTEE ON GEOGRAPHICAL NAMES

7. Chairman and quorum

(1) The chairman shall preside at meetings, but if he is unable to attend any meeting he may nominate any other member of the committee or an officer of the Survey Department to be chairman at such a meeting.

(2) The quorum for a meeting of the Committee shall be three members.

8. Meetings

(1) The secretary shall give at least fifteen days’ notice of all meetings.

(2) The frequency of meetings shall not be fixed, but shall be determined by the amount of business to be disposed of.

9. List of names to be sent to Minister

The Committee shall, from time to time, send to the Minister a list of names which are recommended to him for approval.

10. Expenses of members

(1) Members may claim travelling and subsistence expenses for attendance at meetings in accordance with these Regulations and at the rates for the time being in force in respect of such allowances to Government officers.

(2) All such claims shall be in such form as the Director may determine, and shall be addressed to the Secretary.

PART IV – EXAMINATIONS AND ISSUE OF LICENCES

11. Holding of examinations

Examination of candidates for licences will be held each year at such time and such place as the Board may determine, which shall be notified in advance in the Kenya Gazette.

12. Appointment of examiners

(1) The Board shall appoint a moderator and at least two of the examiners.

(2) All papers shall be marked independently by at least two of the examiners.

(3) The moderator shall report to the Board full particulars of the marks given to each candidate in each subject.
(4) A report under paragraph (3) shall be in writing, signed by each examiner.

(5) The results of the examinations shall be determined by the Board, and shall be conveyed in writing by the Secretary to the candidates within a period of six months from the date of the sitting presentation.

(6) Examiners may claim certain travelling and subsistence expenses incurred in their duties, and all such claims, shall be in such form as the Director may determine, addressed to the Secretary.

(7) The Secretary shall inform examiners of the scale of payment for the time being approved by the Board in respect of any claim under paragraph (6).

13. Persons entitled to be examined

No person shall be entitled to be examined for a licence unless he is eligible in accordance with section 11 of the Act, and produces the declaration or other evidence mentioned therein, which declaration shall be in Form A in the Third Schedule.

14. Exemptions

(1) The qualifications set out in the First Schedule shall be recognised by the Board and shall entitle candidates who apply for exemption to be granted exemption from examination in the respective subjects set out in that Schedule.

(2) Every applicant for exemption shall forward declarations in Forms A and B in the Third Schedule.

15. Alternative qualifications

16. Syllabus

The syllabus for the Trial Survey and Law Examinations for candidates for the Kenya Land Surveyors Licence shall be as set out in the Second Schedule.

17. Pass mark

(1) The pass-mark in the Law Examination shall be 50 percent.

(2) Marks will not be allocated for a Trial Survey, but a candidate shall be adjudged as having either passed or failed.

18. Conditions applicable

(1) A candidate must have had at least two years’ approved training and experience in land surveying before taking the examination.

(2) The trial survey shall be so designed that a competent candidate can complete it in ten weeks.

(3) Candidates shall sit the Law Examination at a time to be decided by the Board.

19. Fees

Fees for the examination shall be as follows—

(a) on application for consideration in accordance with regulation 13, KSh. 500 for a first application and KSh. 200 for every subsequent application;
20. Conduct of examinations

(1) The Board shall appoint one or more invigilators to be in attendance for any written examination.

(2) The moderator shall submit for the approval of the Board the particulars of the Trial Survey and Law Examinations.

21. Certificate for trial survey

(1) A certificate in Form C in the Third Schedule shall be furnished by the candidate when submitting the results of a Trial Survey.

PART V – REGULATIONS AFFECTING ALL SURVEYS MADE UNDER SECTION 22 OF THE ACT

22. Disputes

(1) If a dispute arises between a licensed surveyor and the Director over the application of the regulations, either party may refer the matter to the Board.

(2) The Board shall hear and determine any dispute under paragraph (1) and its decision shall be final.

23. Units of measurement

(1) All distances shown on plans shall be in international metres and decimals of a metre.

(2) All angular measurements shall be in degrees, minutes and seconds of arc.

(3) For purposes of conversion from imperial feet to international metres, the relationship to be used shall be one international metre = 3.280 840 feet, or one foot = 0.3048 metres.

24. Systems of co-ordinates and projections

(1) The figure of the earth and projection to be used in the computation of co-ordinates of any survey shall be one of the following, as the Director may specify, that is, either—

(a) the Universal Transverse Mercator Projection zones 36 or 37 using the Clarke 1880 (modified) figure having elements; semi-diameter-major 6,378,249 international metres ellipticity 1/293.465; or

(b) the Cassini-Soldner Projection calculated from origins at the intersections of odd-numbered-degree meridians with the equator and extending over successive zones of two degrees of longitude, using the Clarke 1858 figure having elements—

<table>
<thead>

<th>Semi-diameter-major</th>
<th>Ellipticity</th>
</tr>
</thead>
<tbody>
<tr>
<td>6,378,351 metres</td>
<td>1/294.26</td>
</tr>
</tbody>
</table>

(2) All co-ordinates required by regulations 85, 92 and 93 of these Regulations shall be listed in the same units as the datum points.
25. Maintenance of measuring instruments

(1) Every licensed surveyor shall maintain his theodolite, measuring bands and all other equipment in good order, and the Director may refuse to authenticate any survey which has been made with defective equipment.

(2) Every measuring band, tape, thermometer and spring balance shall be submitted to the Director before use and thereafter not less often than once in every twelve months for comparison with the official standard in the custody of the Director.

(3) Every surveyor shall record in his field notes the manufacturer's name and number of the model of the theodolite used for each survey.

(4) The Director shall assign a unique official number to every measuring band submitted to him for comparison with the official standard of length, and shall keep a record of all particulars of every measuring band so submitted.

(5) Whenever any measuring band is broken, the breakage shall be recorded in the field notes.

(6) Every surveyor shall record in his field notes the official number of the measuring band used for each survey.

(7) The Director may require any licensed surveyor to submit any measuring equipment for his inspection, and he may refuse to authenticate any survey which has been made with measuring equipment which is thereby found to be defective.

26. Presentation of surveys

(1) Every licensed surveyor shall be personally responsible for the accuracy, fidelity, and completeness of every survey presented by him for the approval of the Director.

(2) It shall be the duty of every surveyor making any survey under these Regulations to record all the relevant information that may aid in securing the accuracy and completeness of every such survey.

(3) Every surveyor shall perform sufficient work to enable him to apply a thorough check to every part of his survey.

(4) Every surveyor shall present his plan, computations and connected documents of every survey in such a manner as the Director, after consultation with the Board, may require, and if any surveyor forwards to the Director any plan, computation or connected document which does not conform substantially with the appropriate requirements, the Director may, at his discretion, return the plan, computations and connected documents to the surveyor and may refuse to authenticate any such plan, computation or connected document until it has been made to confirm with the appropriate requirements.

(5) All surveys returned to a surveyor shall be re-submitted to the Director without undue delay.

(6) The director of Surveys shall not release the final documents for registration of title without express authority from the licensed surveyor who carried out the survey.

27. Permissible errors of measurement

All measurements must be made in accordance with regulations 56, 57 and 60, and the Director may refuse to authenticate any survey which contains errors in excess of those that can be expected from measurements properly carried out in the manner specified.
28. Checking of surveys

The Director may at any time depute any surveyor to check in the field any survey made under the Act by any other surveyor, and such check may include the verification of any information recorded in connection with such survey and may also include the inspection of any survey mark established under the Act or any regulations made thereunder.

29. Information prior to survey

(1) Before carrying out any survey, every licensed surveyor shall be provided, or shall provide himself, with all available information in respect of any previous survey of the plot of land to be surveyed and of any adjoining plot.

(2) Applications to the Director for this information shall be in writing, and shall state whether the land is freehold or leasehold, and shall, whenever applicable, make reference to the approval for sub-division, or other transaction.

(3) The Director shall make available to any licensed surveyor all technical information in his possession. Where the licensed surveyor extracts the information himself by personal search no fee will be payable, but where the information is extracted on his behalf by the Director, the fee prescribed in the Seventh Schedule shall be paid.

30. Prior approval by statutory authorities

(1) Before submitting any survey to the Director, a licensed surveyor shall ensure that approval has been obtained for a subdivision or other transaction of any plot of land in any case where such approval is required by any Act and that the survey submitted conforms with such approval.

(2) The competent authority responsible for giving approval under each respective Act is shown in the Fourth Schedule of these Regulations.

31. Authority for entry upon land

(1) In pursuance of section 23 of the Act, the Director shall furnish to every surveyor an official letter of authority in Form D in the Third Schedule to these Regulations and every such letter of authority shall bear the official seal.

(2) Every surveyor shall present his letter of authority to any owner or occupier of land who demands proof that such surveyor is duly authorized to enter upon his land.

(3) Every surveyor so authorized shall, whenever practicable, give reasonable notice to the owner or occupier of the land of his intention to enter thereon.

(4) Whenever any tree or crops are cut or damaged by any surveyor in the exercise of any of the powers conferred by section 23 of the Act, compensation shall be calculated and paid in accordance with the following—

(a) the surveyor and the owner or occupier of the land shall agree upon a fair compensation for the damage done by the surveyor, and a statement of the damage done and of the compensation which is agreed upon shall be duly signed by both the owner or occupier of the land and the surveyor; or

(b) where the surveyor and the owner or occupier of the land are unable to agree upon the amount of compensation payable, the surveyor shall apply to an officer of the Forest Department or of the Agricultural Department to inspect the damage done to the tree or crops, as the case may be, and to assess the amount of compensation which shall be paid; if the owner or occupier of the land thereupon agrees with the amount of compensation proposed, then both the owner or occupier and the said officer of the Forest Department or the Agricultural Department, as the case may be, shall sign a statement of the amount of compensation duly agreed upon; or
(c) where the owner or occupier of the land and the officer of the Forest Department or of the Agricultural Department, as the case may be, are unable to agree upon the amount of compensation payable, a statement to this effect shall be forwarded to the Director, and the Director shall apply to the Attorney-General for the case in dispute to be referred to arbitration under the Arbitration Act (Cap. 49).

(5) When the amount of compensation has been determined in accordance with paragraph (4) of this regulation, the agreed amount shall be paid by the Government surveyor, or by the licensed surveyor himself when he has caused the damage in question to the owner or occupier of the land:

Provided that compensation shall not be paid for damage to trees or crops within any reservation for a trigonometrical station or fundamental benchmark which is made in accordance with section 25 of the Act.

32. Refusal of entry

If any person refuses to allow a surveyor or person authorized in accordance with section 23 of entry, the act to enter upon any land, the surveyor or authorized person shall in no circumstances use force to gain entry upon the land, but the surveyor or authorised person shall immediately report all relevant details of the obstruction to the Director.

33. Employment of approved assistants

(1) No licensed surveyor shall employ an approved assistant without the written approval of the Board:

Provided that the Director may give provisional approval pending decision by the Board.

(2) When such approval is given it shall be for a period as indicated by the licensed surveyor in the first instance and may be cancelled or renewed at the discretion of the Board.

(3) Such approval shall normally be limited to such number of assistants as the Board may determine in each case.

(4) The work done by any such approved assistant shall be under the director personal control of the licensed surveyor, who shall himself carry out a sufficient check to ensure that the work done by such assistant is correct. The licensed surveyor shall accept full personal responsibility for all work performed by the approved assistant.

(5) The approved assistant shall certify all field notes and computations made by him, and those field notes and computations shall be signed by the approved assistant and countersigned by the licensed surveyor.

(6) The surveyor shall supply a certificate which shall be drawn up in the form in the Ninth Schedule to these Regulations.

(7) If the Director finds that an approved assistant has performed any work which has not been supervised and checked by the licensed surveyor he may suspend approval for the employment of the approved assistant, and the case shall be referred to the Board whose decision on the matter shall be final.

34. Fees chargeable by the Director

(1) The Director shall charge fees for all surveys carried out by the Survey Department in accordance with the charges prescribed in the Fifth and Sixth Schedules to these Regulations.

(2) The Director shall charge fees in accordance with the charges prescribed in the Sixth Schedule to these Regulations for the authentication under section 32 of the Act of a plan submitted by a licensed surveyor.
The Director shall charge fees in respect of all documents issued or services rendered by the Survey Department in accordance with the charges prescribed in the Seventh Schedule to these Regulations.

35. Fees chargeable by licensed surveyors

(1) The fees prescribed in the Eighth Schedule to these Regulations shall be charged by a licensed surveyor in respect of work done by him.

(2) Any licensed surveyor who charges or attempts to charge or offers to do work at, or holds himself out as being prepared to do work at, a survey fee other than that which is prescribed in the scale of fees in the Eighth Schedule to these Regulations shall be guilty of an offence and liable to a fine not exceeding five thousand shillings or to imprisonment for a term not exceeding five months, or to both such fine and such imprisonment; and a licensed surveyor who is a partner in a firm which, or who is associated with a person who charges, or attempts to charge or offers to do work at, or holds himself out as being prepared to do work at a survey fee other than which is prescribed in the scale of fees in the Eighth Schedule to these Regulations shall be guilty of an offence punishable as aforesaid, unless he proves that he took all reasonable steps to prevent any such breach of this regulation.

36. Application to have plan prepared from existing records

(1) Every person who applies to the Director to have a plan prepared from existing survey records in respect of his land shall provide a beacon certificate from a licensed surveyor to the effect that the beacons exist or have been re-established in accordance with the Survey Act.

PART VI – SURVEY MARKS, BOUNDARY BEACONS AND BOUNDARIES

37. Design and specification of survey marks

(1) The design of survey marks shall be as specified by the Director, except in special circumstances which must be set out in the report on the survey.

(2) When an original grant is being re-surveyed or subdivided, any beacon which does not constitute a permanent and fine mark shall be replaced by a new beacon or be referenced to a nearby witness mark.

(3) Every new triangulation or trilateration station other than a purely auxiliary station shall be permanently marked.

(4) In third order traverses as defined in regulation 60 of these Regulations, all traverse stations shall whenever possible be permanent points.

(5) Where conditions do not permit the establishment of permanent traverse stations, the surveyor shall provide an alternative form of referencing, and the reason shall be stated in the surveyor's report.

38. Placement of survey marks

(1) Boundary beacons shall be of such type as the Director may require, and shall normally be surmounted by a cairn of stones or a mound of earth.

(2) The primary consideration in placing all survey beacons is their durability, having regard to the fineness of the mark required for the purpose.

39. Referencing of boundary beacons

(1) All boundary beacons for which no adequate reference mark already exists, the co-ordinates of which are required by regulation 92 of these Regulations to be tabulated on a plan, shall, except as provided below, be referenced by the establishment, with
adequate check, of a permanent underground mark in the vicinity of the beacon and in a position where it is least likely to be disturbed; such underground mark may be a permanent control station established under regulation 37 of these Regulations:

Provided that two existing nearby beacons may be used instead of one underground mark.

(2) The guiding principle in the placing of reference marks is the necessity to provide a ready and accurate means of re-establishing the beacons of the property as well as to provide the basis for any future survey, and the surveyor shall ensure that this requirement is met in a reasonable manner.

(3) With a view to facilitating the location of isolated boundary beacons, such beacons shall, in addition, be referenced to any nearby telephone pole, suitable tree or other prominent physical feature.

(4) In order to maintain a record of reference marks, the surveyor shall verify the position of any previously placed reference marks at beacons involved in his survey, and shall record the appropriate measurements in the field notes.

40. Line beacons and river beacons

(1) Where a rectilinear boundary intersects a curvilinear boundary, and a beacon cannot be placed at the intersection, a beacon shall be placed on the rectilinear boundary as near as is practicable to the intersection. Such beacon shall be known as a line beacon.

(2) Where the rectilinear boundary continues on both sides of the curvilinear boundary, a line beacon shall be placed on both sections of the rectilinear boundary.

(3) Where the curvilinear boundary falls within a river or swamp, the line beacon shall be placed above flood level and shall be known as a river beacon.

(4) Distances from line or river beacons shall be measured to the precision required by regulation 88(3).

(5) All subdivisions of a property (including any remainder) which are situated across a road or railway reserve shall be fully beached as self-contained units.

(6) When a curvilinear feature is adopted as a sub divisional boundary the several subdivisions and any remainder shall be fully beached as self-contained units.

41. Placing beacons on boundary line

(1) Where a beacon is placed on a boundary line, it shall be proved to be on line by establishing either directly or indirectly its relationship with the terminal beacons of the line.

(2) Where no rectilinear boundary of a subdivision coincides in whole or in part with any perimeter boundary of the land being subdivided, the relationship of the sub-divisional beacons to at least two of the perimeter beacons shall be directly or indirectly established.

42. Beacons placed from computed data

Where a beacon is placed from computed data, its position shall be proved by an independent field check and calculation.

43. Boundaries adjoining trust land or forest areas

(1) Where any area of land which shares a common boundary with an area of trust land is surveyed, that common boundary shall be defined by intervisible beacons.
(2) Where any land adjoining any boundary of a forest area is surveyed, the common boundary shall be surveyed and defined by beacons placed thereon at reasonable intervals, so that the boundary can be easily identified.

(3) Where the common boundary surveyed as aforesaid has been cut through forest, beacons need not be intervisible, but they shall be intervisible when the boundary passes through glades or scattered bush.

44. When beacons cannot be placed

(1) When the corner of a plot of land coincides with the corner of a permanent building, such corner shall be surveyed and it may be adopted as the beacon.

(2) Where the corner of a plot of land does not coincide with the corner of a permanent building but is in such close proximity to it that a standard boundary beacon cannot be established, such corner of the building shall be surveyed and its position relative to the plot corner established.

(3) When the corner of a plot of land falls within inaccessible ground, where a beacon cannot be placed, the position of such corner shall be permanently referenced by at least one indicatory beacon placed on a boundary line as near as possible to the corner.

(4) In all the above situations details shall be indicated on the plan.

(5) When the corner of a plot of land is occupied by a permanent and easily recognized mark, such as a substantial fence-post and fencing or a tree, such corner shall be referenced by at least one permanent underground mark.

45. Damaged beacons cannot be repaired

Where an old beacon of the plot of land under survey is found to be damaged, the surveyor shall repair or renew the beacon, and shall make a record of the repairs in his field notes.

46. Trigonometrical station to be repaired

(1) Every surveyor engaged on Government work who discovers any trigonometrical station to be damaged and in need of repair shall carry out such repair as may be necessary.

(2) A licensed surveyor not engaged on Government work is not required to repair any damaged trigonometrical station, but he shall report in writing to the Director the name, number and position of such station and the nature of the damage which he has observed.

47. Missing beacons

Missing beacons shall be noted in the surveyor’s report (regulation 85(a) refresh), and in order to demonstrate that he has searched in the right place the surveyor shall furnish such measurements and observations as may be needed.

48. Re-establishment of missing beacons

(1) If a surveyor is required to re-establish a missing beacon he shall submit his field notes, computations, and report, to the Director.

(2) Normally such survey shall be carried out in conformity with the provisions of these Regulations covering the determination of new beacons, having regard to all other evidence, but in special cases such as within the areas of the compass surveys in the Coast Province, the Director may authorize methods and make alternative requirements.
49. Redundant beacons

Where the existence of a visible redundant beacon is likely to lead to confusion, it shall be removed or replaced by an underground witness mark.

50. Surveys and re-establishment of boundaries

(1) In every survey of land, where the position of an existing beacon is found to differ materially from that indicated by the relevant previous survey, the surveyor shall exercise the greatest care—
   (a) in establishing that the discrepancy actually does exist; and
   (b) in collecting all evidence which may have a bearing on the eventual action to be taken.

(2) A careful search shall be made in the position indicated by the previous survey to ascertain whether or not any evidence of an old beacon or its reference marks still exists, and the position of any buildings or other development shall be recorded.

(3) Where the situation allows, the surveyor, before taking further action, shall provide the Director with a full report, and shall request instructions.

PART VII – SURVEYS PERFORMED BY TRIANGULATION, TRILATERATION, TRAVERSE AND AIR SURVEY

51. Guiding principle

All licensed surveyors shall assist, as far as is consonant with efficient and economical survey, in the establishment and increase of permanent control marks of all types throughout Kenya.

Triangulation and Trilateration

52. Geodetic and secondary triangulation

All geodetic and secondary triangulation shall be carried out under the control of the Director, and shall normally be performed by Government surveyors.

53. Lower order triangulation

(1) All new triangulation and trilateration of lower order than geodetic or secondary required to provide general control for cadastral surveys shall be brought into harmony with existing control by methods conforming with current survey practice.

(2) When issuing survey data for such work to a licensed surveyor, the Director may recommend either a particular sequence in the computation of new work or any special computations which the circumstances may require, and it shall be the duty of a licensed surveyor so informed not to depart from the Director’s recommendation without reasonable cause.

54. Tertiary and minor triangulation

For the purpose of regulations 55 and 56, tertiary triangulation means triangulation established to an accuracy which makes it suitable for use as a basis of further triangulation; minor triangulation means triangulation established to a lower accuracy and suitable only as a basis for fixing local traverses and beacons.

55. Instruments used for triangulation and trilateration

(1) A micrometer theodolite of an approved pattern reading directly to one second of arc, or better, shall be used for geodetic, secondary, or tertiary triangulation.
(2) A micrometer theodolite of an approved pattern reading directly to twenty seconds of arc or better, shall be used for minor triangulation.

(3) Electronic distance measuring equipment of an approved pattern shall be used for trilateration distance measurement.

56. Method of taking triangulation

(1) The minimum requirement for tertiary and minor triangulation shall be two arcs observed on different zeros:

Provided that two rounds observed in different zeros may be sufficient for observations to points situated less than two kilometres distant.

(2) An arc of angular observations for triangulation shall consist of two rounds observed in opposite directions on the same zero, one round being on face left and the other on face right.

(3) For each arc a suitable reference stating shall be selected and both rounds of the arc shall be closed on to it, and the misclosure of each round shall be appropriate to the class of theodolite used.

(4) The difference between measurements of any angle on different arcs shall be appropriate to the class of theodolite used.

(5) Where electronic distance measuring equipment is used, sufficient observations shall be taken to eliminate any ambiguities, and achieve the accuracy required by regulation 27.

57. Fixing of beacons

(1) Triangulation, trilateration, or a combination of these techniques for determining the position of beacons shall be carried out in accordance with the procedure laid down in regulations 53 to 56 of these Regulations and the method of computation shall conform with current standard survey practice.

(2) Beacons may also be fixed by—

(a) intersection, provided at least three suitable rays are observed on to the point to be fixed;

(b) re-section, provided at least four points in favourable positions for such fixing are observed;

(c) any other method which is capable of fixing a point with no less accuracy than that of the methods of intersection and re-section:

Provided that no point fixed by any of the methods specified in subparagraphs (a), (b) and (c) of this paragraph shall be used to form the basis of further triangulation.

58. Isolated surveys

(1) In areas where no triangulation exists, the datum shall consist of an astronomically determined position and azimuth, but in special circumstances the Director, may give written approval for the adoption of local origin and bearings based on a magnetic orientation.

(2) (a) Such isolated surveys shall, wherever possible, be made by triangulation, and a base-line shall be measured to provide the length of the first side.

(b) Generally, the base-line shall be in length not less than one fourth of the greatest distance across the area to be surveyed.

(c) When a measuring band is used, such base-line shall be measured at least twice, and in two or more sections not necessarily in one straight line. The several sections shall be compared with one another through subsidiary triangles.
(d) If, after all appropriate corrections have been made, the difference between any two measurements exceeds one part in 12,000 of the measured distance, the base shall again be measured until the resultant difference between any two measurements does not exceed this limit.

(e) When electronic distance measuring equipment is used, the measurements shall conform with the requirements of regulation 56(5).

Traverse Surveys

59. Geodetic and secondary traverse

All geodetic and secondary traverses shall be carried out under the control of the Director and shall normally be performed by Government surveyors.

60. Lower order traverses

(1) (a) All main control traverses in built-up areas shall be observed to third order standard.

(b) All such lines shall be double-chained, and field operations shall be appropriate to a standard of accuracy of not less than 1:20,000.

(2) (a) All other control traverses shall be observed to fourth order standard.

(b) Field operations for such surveys shall be appropriate to a standard of accuracy of 1:10,000, but computational misclosures shall be allowed to the same degree of accuracy as the datum supplied by the Director.

(c) A surveyor shall not use a loop traverse closing on his starting point if it is practicable to traverse between two previously fixed stations.

(d) When a surveyor is unable to close his work within the limits prescribed by the Director, the Director may at his discretion authorize or instruct the surveyor to accept a lower order of misclosure, otherwise he shall close his new work by a loop traverse, orientation being confirmed in a satisfactory manner.

(3) (a) The survey of curvilinear boundaries such as roads, railways, rivers, high-water marks, etc., shall be made by subsidiary traverse or by air-survey methods:

  Provided that this regulation shall not preclude any more accurate method.

(b) Such surveys of curvilinear boundaries shall be carried out to a standard of accuracy appropriate to the plotting scale of the plan of the survey.

(4) Where traverses are extremely short, a reasonable misclosure shall be allowed irrespective of the minimum requirements under these Regulations.

61. Angular measurement of traverses

(1) A theodolite permitted by regulation 55(2) shall be used for all traverses other than subsidiary traverses.

(2) Angular measurements for subsidiary traverses may be made either with a theodolite or a compass of approved pattern, subject to the necessity to achieve the standard of accuracy required by regulation 60(3)(b) of these Regulations. If a compass is used, both forward and back observations must be observed at each station.

(3) At every traverse station in other than subsidiary traverses, not less than two rounds on different faces and different zeros shall be observed. It is not necessary to close the rounds on to a reference station.

(4) The first round at each station shall be set, when possible to the general orientation which is to be used throughout the survey.
62. Linear measurements of traverses

(1) All linear measurements of third and fourth order traverses shall be measured using equipment and methods appropriate to the standards of accuracy specified in regulation 60 of these Regulations.

(2) Slopes shall be determined by a theodolite, with a degree of precision appropriate to the standards specified in regulation 60 of these Regulations, and where the slope is in excess of 10° the theodolite shall be read on both faces.

(3) All measurements shall be reduced to the horizontal at mean sea level and corrected for temperature and sag.

63. Surveys of curvilinear boundaries

(1) In survey of curvilinear boundaries by the tacheometric method, distances determined by staff readings shall normally not exceed 200 metres and all three stadia readings on the staff shall be recorded.

(2) Offsets substantially exceeding 75 metres in surveys of plots over 10 hectares in area, and exceeding 50 metres in surveys of smaller plots, shall be set out instrumentally and the method recorded in the field notes.

(3) If a surveyor wishes to adopt an existing survey of a curvilinear boundary for a sub-divisional survey, he shall first obtain the consent of the Director.

64. Road and railway reserves

(1) A road or railway reserve boundary shall be taken as a line parallel to the centre line of the road or railway at such distance from it as may be specified.

(2) When an area fronts on to a railway reserve, and the approved scheme of subdivision or grant demands that the boundary between the property and the railway reserve be demarcated by straight lines, this boundary shall be defined by one or more straight lines, not exceeding 30 metres each in length, beacons being placed at the specified distance from the centre line:

Provided that the Director may relax this requirement where he considers that such relaxation will not materially affect the definition of the reserve.

65. Swinging or hanging traverses

Swinging or hanging traverses unsupported by independent checks shall not be used.

66. Verification of points of departure and termination of traverses

Where the means exist, every point of departure of a new traverse and every terminating point shall be identified and verified by observations and measurements, and these observations and measurements shall be recorded in the field notes.

67. Verification of datum stations

Where a traverse station is converted for use as a boundary beacon, or where a previously co-ordinated traverse station is used to place a boundary beacon, the surveyor shall verify the station by observations and measurements, and shall record them in his field notes.

Air Survey

68. Air survey

Air survey methods may be employed in special cases with the prior written approval of the Director.
69. **Field notes to be on special forms**

   (1) Field notes and field note cover pages shall be made on such forms as the Director may require.

   (2) Licensed surveyors shall pay to the Director the cost price of any blank forms supplied to them by the Director.

70. **Recording of triangulation observations**

   (1) At each triangulation station every surveyor shall, when taking observations, record in his field notes the date, the time, the weather conditions and the degree of visibility.

   (2) When it is necessary, for any reason, for a surveyor to divide his observations, at any station into two sets, the second set shall incorporate at least two stations which have been observed in the first set.

71. **Recording of traverse observations**

   (1) All traverse observations and measurements shall be recorded in the field notes, in the sequence in which they are observed or measured.

   (2) A full description of every beacon and other mark used in the course of survey, whether placed, found and used, or adopted, shall be recorded in the field notes.

**Topographical Features**

72. **Topographical features**

   (1) Sketched topographical features shall be recorded where possible, and with special care in the vicinity of a beacon to facilitate its location.

   (2) All developments on any plot, such as buildings, wells and boreholes, and any other development, such as pipelines which in the surveyor’s opinion may involve a question of easement, right-of-way or any prescriptive rights, shall be surveyed.

73. **Method of entering field notes**

   (1) All observations and measurements made in the field shall be recorded clearly and legibly in hard pencil, and shall be in such manner as the Director may require.

   (2) All entries in field notes, which are not made in the field shall be written in blue or blue-black ink.

   (3) All entries in field notes shall be indexed and referenced in such a way that any competent person may be able to prepare a true plan therefrom, and they shall be in such form that they have only one reasonable and correct interpretation.

74. **Erasures and corrections**

   (1) In no circumstances shall any erasure be made in field notes.

   (2) Corrections shall be made by drawing a thin line through the erroneous entry, so as to leave the original entry still legible; the correct entry shall be written outside the erroneous entry and not across it.

   (3) Corrections to field notes shall be made in the field, and shall be a true record of actual measurements or re-observation, and shall be initialed by the surveyor.
75. Nomenclature

(1) The letters, names, or numerals, by which any beacon or survey mark is identified in field notes shall be in plain roman or italic script.

(2) In choosing suitable descriptions, surveyors shall take care to avoid nomenclature which is likely to lead to confusion, and the letters, I, O, S, and Z, shall not be used.

76. Cover and page index

(1) The cover page of field notes shall be completed with such information as the Director may require.

(2) This information shall include the standard temperature and tension for the measuring band used in the survey and, where measurements have been made in catenary, the weight per 100 feet (or other standard length) of the measuring band.

(3) The pages of field notes shall be numbered, and an index in alphabetical and numerical order of all observations and measurements in the field notes shall be given on the reverse of the cover page.

77. Unorthodox methods

When any surveyor is compelled to use unorthodox methods of survey owing to obstructions or difficulties in the field, he shall give explanatory notes and, where necessary, diagrams in his field notes, to explain clearly the method which he has used and recorded.

PART IX – COMPUTATIONS

78. Computations to be in special forms

(1) Computations shall be made on such forms as the Director may require.

(2) Licensed surveyors shall pay to the Director the cost price of any blank forms supplied to them by the Director.

79. Method of entering computations

Computations shall be clearly and legibly set out in ink, and the entry of numbers or words to indicate checks on the computations shall be made in pencil or in a different coloured ink; provided that red ink shall be reserved for the use of the Director. Where computer facilities are used, the print-out must conform to the requirements of the Director of Surveys.

80. Triangulation and trilateration

Surveys carried out by triangulation and trilateration shall normally be set out and computed by the Direction Method, or in conformity with any other current standard survey method.

81. Traverse computations

(1) In surveys carried out by traverse methods, each separate traverse shall normally be set out in suitable form so as to demonstrate the initial datum bearing or bearings, the bearing misclosure and the consequent adjustment of bearing.

(2) The linear error of closure, its distribution through the traverse, and the final adjusted values of all traverse points, shall be demonstrated in conformity with current standard survey practice.
82. Independent checks to be made

Before any surveyor forwards any computations to the Director for authentication he shall make an independent and complete check of all his calculations, and such checks shall accompany the computations and be clearly demonstrated.

83. Method of computing areas

(1) Rectilinear areas shall be computed mathematically.

(2) When a portion of the boundary of a property is a curvilinear boundary, the area of the property shall be determined partly by computing from co-ordinates and partly by planimeter determination from a large scale drawing of the curvilinear boundary, in conformity with regulation 88 of these Regulations.

(3) If necessary, the co-ordinates of accurately scaled points on the drawing of the curvilinear boundary shall be used in the computation, in order to reduce to a minimum the effect of plotting and other errors on the area determined by the planimeter.

84. Degree of accuracy for computing areas

Areas shall normally be calculated to the degree of accuracy specified in the following table:

<table>
<thead>
<tr>
<th>Hectares</th>
<th>0.0001</th>
<th>0.001</th>
<th>0.01</th>
<th>0.1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Plots not exceeding 1 hectare</td>
<td></td>

<td></td>
<td></td>
</tr>
<tr>
<td>Plots over 1 hectare and up to 10 hectares</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>Plots over 10 hectares and up to 1,000 hectares</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

85. Presentation of computation

The computations of every survey submitted shall be preceded by—

(a) a report; and

(b) a general index to the computations; and

(c) a complete list of final co-ordinates of every point adopted or calculated in the survey; this list shall be arranged in groups comprising datum points, new triangulation, trilateration, and traverse stations, other old or re-established boundary beacons and new boundary beacons, arranged in either alphabetical or numerical order; and on this co-ordinate list a description of every point shall be given, and reference shall be made to the source of co-ordinates including datum plans or pages of computations.

PART-X – PLANS

86. Plans to be drawn on special forms

(1) All plans shall be drawn in waterproof inks on such plan forms as the Director may require.

(2) Licensed surveyors shall pay to the Director the cost price of any plan forms supplied to them by the Director.

87. Scales to be used

(1) Plans shall be plotted at one of the standard scales tabulated in regulation 89.
(2) The scale shall be selected so that all essential detail is clearly shown, and the plan area of any parcel shall not be less than 5 square centimetres:

Provided that, in a survey comprising both large and small parcels, enlargements of the small parcel(s) may be shown in inset(s) at a larger scale than that of the main plan.

88. Plotting of curvilinear boundaries

(1) Curvilinear boundaries of any property not exceeding 1,000 hectares in extent, being boundaries which have been fully surveyed, shall be plotted accurately on scale not smaller than 1 in 5,000; for larger areas the Director shall specify the scale to be used.

(2) Where the consent of the Director has been obtained to the adoption of an existing survey of a curvilinear boundary, the surveyor shall—

(a) make an accurate reduction of the larger scale plan for use at a smaller scale; or

(b) make an accurate transfer for use at the same scale; or

(c) re-plot from the original field notes and computations for use at a larger scale.

(3) Where a rectilinear boundary intersects a curvilinear boundary and the provisions of regulation 40(1) and (2) are applicable, the distance from each line or river beacon to the intersection shall be shown to the nearest metre, but the distances between successive beacons along the rectilinear boundary shall be shown to the degree of precision required by regulation 92(3).

(4) A curvilinear boundary shall be distinctively described.

89. Plotting by co-ordinates

(1) All plans shall be plotted by rectangular co-ordinates.

(2) A plotting grid of squares covering the surveyed area shall be drawn in blue or such other colour as the Director may require as such, that grid line values shall be multiples of the metric intervals shown in the following table:

Provided that where regulation 24(2) requires co-ordinates to be expressed in feet, the line values shall be multiples of the foot intervals in the table.

<table>

</tbody>
</table>

(3) Every plan shall contain at least one complete grid square and no square shall have sides exceeding 20 cm. in length.
90. General rules for plotting

(1) Every detail shown on a plan shall be distinct, and the camping of figures shall be avoided.

(2) The north point on every plan shall be upwards, and parallel to the sides of the plan form.

91. Abutting boundaries

(1) All boundaries abutting on any property which has been surveyed shall be shown on the plan.

(2) Where the plot or plots adjoin a surveyed road or railway reserve, and when the scale of plotting permits, the boundaries abutting on to the opposite side of the reserve shall be shown.

92. Co-ordinates and numerical data

(1) In every survey the co-ordinates of block corners of regular shaped figures, of permanent control and numerical stations, and of all beacons of irregular-shaped figures shall be shown on the plan.

(2) The length and bearing of every boundary shall, when possible, be inscribed along the lines to which they refer, and such lengths and bearings shall be deduced from the final co-ordinates as tabulated on the plan.

(3) In surveys of all properties the lengths and co-ordinates shall be shown to two decimal places of a metre.

(4) (a) The area of every plot shall be inscribed where possible within the figures to which it refers to the degree of accuracy prescribed for the net area by regulation 84 of these Regulations.

(b) Areas shall be shown as follows—

(i) area ha. (approx.)

(ii) when reserves are to be deducted—

   total area ha. (approx.)
   less reserve ha. (approx.)
   net area ha. (approx.)

(c) Sufficient space shall be left for the plot number and the deed plan number to be inserted by the Director.

(d) No plot number shall be inserted by any surveyor.

(5) All data of any unco-ordinated connexions as prescribed in regulation 39 of these Regulations and of terminal and perimeter connexions as prescribed in regulation 41 of these Regulations, and of connexions to building corners as prescribed in regulation 44 (2), and any other data which serve to clarify or to complete any survey plan, shall be shown on the plan.

93. Triangulation and trilateration charts

When surveys have been made by triangulation or trilateration or a combination of these techniques, a chart drawn on a separate plan form shall be made showing all rays observed and/or measured. Such charts shall show a tabulated list of final co-ordinates of all permanent control points:

Provided that it shall not be necessary to draw a separate plan where the control points have been surveyed by methods permitted by regulation 57(2).
94. Colour and style of printing

Every survey plan shall be drawn in accordance with the requirements of the Director, in respect of colours, style of printing and other details.

95. Topographical features

(1) All topographical features have been accurately fixed by survey, or have been sketched with reasonable precision, in accordance with regulation 72 of these Regulations, shall be shown in their correct plotted positions of the plan.

(2) When roads have not been surveyed with the same accuracy as other features, they shall be marked “approximate only”.

(3) When form lines add nothing of significant value to the plan, they shall not be shown.

(4) Topographical information may be taken from any official map published by the Director, or any authority approved by the Director with due caution in regard to the limitations enjoined by the scale of the map.

(5) Where topographical information is taken from aerial photographs or other remotely sensed data, the source shall be quoted on the plan.

96. Erasures and corrections

(1) No erasures shall be made after a plan has been drawn in ink.

(2) Necessary corrections shall be made by scoring through the incorrect word, letter, or numeral, in ink, and every such correction shall be initialed by the surveyor.

97. Certificates

The certificate on every plan form shall be signed and dated by the surveyor who has made the survey.

98. Authentication by Director

The Director may refuse to authenticate any plan submitted by a licensed surveyor which, in his opinion, has been drawn carelessly and untidily, or is received by him in a dilapidated or damaged condition.

PART XI – DEED PLANS

99. Deed plans to be drawn on special forms

(1) Deed plans shall be drawn in waterproof ink on such forms as the Director may require, and shall be used by every surveyor.

(2) Licensed surveyors shall pay to the Director the cost price of any forms supplied to them by the Director.

(3) Deed plans for initial grants of Government land shall normally be prepared by the Director.

(4) Printed deed plans may be used in such circumstances as the Director may decide.

(5) Except where the contrary is expressly stated in the documents of the case issuing from the Commissioner of Lands, deed plans for the purpose of surrender, regrant, change of user, or consolidation, may be prepared by a licensed surveyor.
47 [Issue 1]

(6) Regulations 44(4), 87, 88, (3), 90(1), and 98 of these Regulations shall apply to deed plans.

(7) The director shall specify the quality of the deed plan material to be used.

100. General rules for deed plans

All deed plans shall be drawn in accordance with the requirements of the Director.

101. Numerical data

The Director shall specify the nature of the numerical data to be shown on the deed plan.

102. Topographical features

Topographical features and details of development, except as prescribed by regulations 44(4) and 88(3) shall not be shown on deed plans.

103. Abutting boundaries

Abutting boundaries shall be shown in the manner laid down in regulation 91 of these Regulations.

104. Areas

(1) Areas shall be shown in the manner specified in regulation 92(4).

(2) When two or more properties are combined in one Certificate of Title, the total shall be given as in regulation 92(4) (a) and (b), and beneath such total each area must be tabulated separately as follows—

<table>
<thead>
<tr>
<th>L.R. No.</th>
<th>area</th>
<th>ha. (approx.)</th>
</tr>
</thead>
<tbody>
<tr>
<td>L.R. No.</td>
<td>area</td>
<td>ha. (approx.)</td>
</tr>
<tr>
<td>L.R. No.</td>
<td>area</td>
<td>ha. (approx.)</td>
</tr>
</tbody>
</table>

Total area .............................................................. ha. (approx.)

(3) All the areas shall be quoted to the precision for the total area by regulation 84 of these Regulations.

105. Erasures and corrections

(1) No erasures shall be made on a deed plan.

(2) Corrections shall not exceed three in number on any one deed plan, and shall be effected by scoring through the incorrect letter, word, or numeral.

(3) Such corrections shall be initialed by or on behalf of the Director and not the surveyor.

106. Locality index number

The general locality of any plot of land shall be given by reference to the nearest urban area or railway station and to the standard topographical sheet.

107. Name of surveyor

Deed plans prepared by or on behalf of a licensed surveyor shall have his name printed on the bottom left-hand corner of each copy.

108. Authentification

(1) Deed plans shall be prepared in duplicate.
(2) One copy shall be authenticated by bearing thereon the signature of the Director or of a person authorized by him, together with the date of signature. The other copy shall bear the printed name of the person who signed the authenticated copy, together with the date of signature and the imprint of the official seal.

(3) The signed copy of every deed plan shall be deposited with the Director, and shall be the official copy, and the evidence contained in his official copy, read with the authenticated survey plan upon which it has been based, shall prevail in every case.

(4) The Director may at his discretion prepare and issue a duplicate copy of a deed plan that has been mislaid or lost. Such copy shall bear the signature of the Director or of a person authorized by him, together with the date of signature and the imprint of the official seal and the words “Certified True Copy”.

109. Cancellation of deed plan

(1) In accordance with section 33 of the Act, any deed plan which is withdrawn by the Director shall be cancelled by him, and evidence of the cancellation shall be the word “Cancelled” inscribed on the deposited copy supported by the signature of the Director, or of a person authorized by him.

(2) The duplicate and triplicate copies of a cancelled deed plan shall, whenever available, be withdrawn from the person in whose custody they are kept, and shall be destroyed.

PART XII – GOVERNMENT LAND SURVEYS

110. Coast foreshore reservation

(1) Where unalienated Government land fronting on the area coast is being surveyed for alienation, a strip of land not less than 60 metres in width shall normally be reserved above high-water mark for Government purposes:

Provided that, if the interests of development require, the Minister may direct that the width of this reservation shall be less than 60 metres in special cases.

(2) High-water mark in all cases in these Regulations means the Mean High Water Mark of Spring Tides.

111. Tidal river reservation

On all tidal rivers a reservation of not less than 30 metres in width above high-water shall be made for Government purposes:

Provided that, the Minister may direct that the width of this reservation shall be less than 30 metres in special cases.

112. Lake reservations

For boundaries fronting on lakes, a reservation of not less than 30 metres in width from the water edge at ordinary high-water shall be made for Government purposes:

Provided that, if the interests of development require the Minister may direct that the width of this reservation shall be less than 30 metres in special cases.

113. Defining of reservation boundaries

When surveying the reservations referred to in regulations 110, and 112 of these Regulations, a surveyor may make each boundary a straight line or a series of straight lines at a distance approximating closely to the specified distance from the feature for which a reservation is needed.
114. Defining swamp boundaries
   (1) Where an area fronts on a swamp, a give-and-take straight line boundary shall be adopted wherever possible.
   (2) Indefinite median lines, which cannot be re-established by survey, shall be avoided.
   (3) Swamps of an average width of 150 metres or more shall be excluded from farms, and a straight line boundary along the edge of the swamp shall be surveyed and beaconed.

PART XIII – MISCELLANEOUS

115. Written evidence for Board
   The evidence of the matters specified in subsection (1) of section 12 of the Act required by that subsection to be produced, shall be such written evidences as satisfies the Board as to those matters.

116. Public access to maps and plans
   (1) Any person shall have access, free of, to every published map and plan in the possession of the Director:
      Provided that the Director or his representative may refuse access as he may deem necessary in the public interest.
   (2) A search fee of one hundred shillings per plan shall be paid in advance by any person who is not a licensed surveyor or not on Government duty, for access to any unpublished plan.

117. Government copyright
   (1) The Government copyright of all maps published by the Director and of all plans deposited in the survey office in accordance with the provisions of section 30 of the Act, is vested in the Director.
   (2) No person shall publish or cause to be published a copy of any map or plan of which the copyright is vested in the Director without payment of such royalty as the Director may determine in each case.

118. Repeal of regulations
   The Survey Regulations are repealed.

</tr>
</tbody>
</table>
SECOND SCHEDULE

EXAMINATIONS FOR ADMISSION AS A LICENSED SURVEYOR

Syllabus for the Trial Survey and Law Examinations

(a) **Viva voce** in land surveying and related matters.

(b) **Trial survey**

Field determination of local time, latitude, longitude and azimuth.

Provisions of adequate control to cover a rural area, the subject of further survey. Survey of rural area referred to, including the traverse of a curvilinear boundary, and the re-establishment of a lost beacon. The curvilinear boundary may be required to be determined from air photographs supplied.

Survey of a small township area with buildings thereon, which include restoration of an old survey.

Topographical and Contour Survey.

Setting out Engineering structures.

The original field notes, computations and plans must be submitted to the Board, together with a certificate in the form prescribed in regulation 21 of these Regulations.

(c) **Law Examination**

A written examination on the text and application of such Acts as the Board may from time to time prescribe, and the rules, regulations and by-laws made thereunder, so far as they affect survey and the law relating to land control, land registration and title to land.

<tr>
<td>Agricultural (Plots under 8 hectares only).</td>
<td>Land Planning Act (Cap. 303) and Land Control Act (Cap. 302).</td>
<td>The authority prescribed by the legislation.</td>
</tr>
</tbody>
</table>

*Within the area covered by the 1926 Mombasa Town Planning Scheme the Municipal Council of Mombasa is the approving authority.

Information regarding any subsequent relevant legislation may be obtained on application to the Director.

FIFTH SCHEDULE

[Rule 34, L.N. 96/1999, s. 2.]

FEES PAYABLE FOR SURVEYS EXECUTED BY THE SURVEY OF KENYA

1. Land registered or to be registered under the Government Lands Act (Cap. 280), or the Registration of Titles Act (Cap. 281)—

   (a) For surveys and beaconing for alienation and first registration of any Government land or of any Trust land which has been set apart, the fee shall be assessed in accordance with the following formula—

   (i) for each plot of land Sh. 10,000H (where “H” is the square root of the area in hectares, of the plot); or

   (ii) in accordance with the Eighth Schedule, whichever is less:

   (iii) the charge for deed plans shall be Sh. 1,000 for each set;

   Provided that the fees shall be computed to the nearest Sh. 100 and the minimum fee shall be Sh. 10,000 plus 3 percent of the market value of the land; but may be reduced at the discretion of the Director to Sh. 5,000 per plot for Government or Local Government housing schemes;

   Provided further that the fees may be reduced at the discretion of the Director to Sh. 1,000 per plot for Government or Local Government housing schemes.

   (b) For mutation surveys, fees shall be assessed in accordance with the Eighth Schedule.
2. Land registered or to be registered under the Registered Land Act (Cap. 300)—

   (a) For surveys for the first registration of any land except land to which the Land
       Adjudication Act or the Land Consolidation Act has been applied, fees shall
       be assessed as follows—

       (i) For surveys executed in accordance with section 22(3) of the Act—
           for each parcel of land .......................................................Sh. 10,000H
           plus 3 percent of the market value of the land (where “H” is the square
           root of the area, in hectares of the parcel);
           Provided that the fees shall be computed to the nearest Sh. 100 and
           the minimum fees shall be Sh. 10,000 plus 3 percent of the market
           value of the land;

       (ii) For other surveys—
           For each plot of land ........................................................... Sh. 3,000H
           (where “H” is the square root of the area, in hectares of the parcel):
           Provided that the fees shall be computed to the nearest Sh. 100 and
           the minimum fee shall be Sh. 3,000.

   (b) For mutation survey, fees shall be assessed as follows—

       for each parcel of land created by subdivision or partition .................to
       be transferred Sh. 3,000H (where “H” is the square root of the area, in
       hectares, of the parcel)—
       Provided that the fees shall be computed to the nearest Sh. 100 and
       the minimum fees shall be Sh. 3,000.

   (c) For fixing boundaries under section 22 of the Registered Land Act, the fees
       shall be assessed in accordance with the Eighth Schedule.

   (d) For boundary disputes ..............................................................Sh. 2,000H
       (where “H” is the square root of the area of the complaints parcel in
       hectares):
       Provided that the fees shall be computed to the nearest Sh.100 and the minimum
       fees shall be computed to the nearest Sh. 100 and the minimum fees shall be Sh. 2,000.

3. In any other case, the survey fees shall be assessed by the Director.

4. The Director may, in his discretion, remit part or all of any payable fees under the
   Schedule.

SIXTH SCHEDULE

FEES PAYABLE FOR THE AUTHENTICATION OF PLANS SUBMITTED TO THE
DIRECTOR FOR APPROVAL

(a) The following fees will be charged for the authentication of every plan
    submitted to the Director for approval—

    for each plot of land shown on the plan ........................................... Sh. 300H
    (where “H” is the square root of the area of the plot in hectares):
    Provided that—

    (i) fees shall be calculated to the nearest Sh. 100 with a minimum of Sh.
        1,000 and a maximum of Sh. 5,000;
SIXTH SCHEDULE—continued

(ii) the fee for each easement shall be Sh. 1,000;
(iii) one-half of the above fees shall be charged for authenticating compiled plans;
(iv) the Director may in his absolute discretion remit part or all of any fee;
(v) the Director may reduce the fees for Government or Local Government housing schemes by 50 percent;
(vi) no fee shall be charged for the authenticating of any triangulation chart, any standard traverse chart, any additional plan which may be rendered necessary by regulation 88 of these Regulations (enlarged drawing of irregular boundaries) or any survey made for the re-establishment of beacons.

(b) The following fee will be charged for every plan submitted to the Director for the preparation or amendment of Registry Index Maps for land to be registered under the Registered land Act—

(i) for the preparation/amendment of the Registry Index Maps under fixed boundaries under section 22 of the Registered Land Act:
   
   For each parcel of land shown on the plan Sh. 300H, (where “H” is the square root of the parcel in hectares):
   
   Provided that the fees shall be computed to the nearest Sh. 10 and the minimum fee shall be Sh. 300;

(ii) for the preparation/amendment of the Registry Index Maps under general boundaries of the Registered Land Act—

   for each parcel of land shown on the plan Sh. 300H, (where “H” is the square root of the parcel in hectares):

   Provided that the fees shall be computed to Sh. 10 and the minimum fee shall be Sh. 200.

SEVENTH SCHEDULE

[Rule 34.]

FEES CHARGEABLE FOR DOCUMENTS AND MATERIALS ISSUED AND OTHER SERVICES RENDERED BY THE SURVEY OF KENYA

The fees chargeable for documents and materials issued and other services rendered by the Survey of Kenya shall be assessed by the Director and the charges displayed under the Seal of the Survey in all Survey of Kenya offices.

EIGHTH SCHEDULE

[Rule 35, L.N. 96/1999, s. 4.]

SCALE OF FEES CHARGEABLE BY A LICENSED SURVEYOR FOR SURVEYS MADE BY HIM

1. Interpretation

   In this Schedule, except where the context requires—

   “basic charge” means a charge designed to cover the cost of investigation of survey records, the collection of survey data, and the clarification of the position in regard to title and survey and in relation to the market value of the land to be surveyed;
“hilly”, in relation to land, means that the average slope is between 3 degrees and 15 degrees;

“rough”, in relation to land, means that the average slope exceeds 15 degrees;

“topographical charge” means a charge designed to cover the additional cost of surveys carried out in rough country or hilly country;

“unhealthy area” means any area classified as unhealthy in the Code of Regulations published by the Government for the purposes of the computation of leave to be taken by Government officers.

2. Method of payment

(1) (a) The charges prescribed in this Schedule shall be payable as to 75 percent of the cost on completion of the survey and the plan being deposited with the Director of Surveys, and the remaining 25 percent shall be payable when the survey has been approved by the Director of Surveys:

Provided that when accepting a survey commission a surveyor may require the payment of a deposit against eventual charges to be raised in connection with the survey.

(b) In cases where no plan is necessary the full charge shall be payable on completion of the field survey.

(2) In large surveys, the surveyor shall be entitled to progress payment at monthly intervals throughout the period of the survey, and such payment shall be at the rate of 75 percent of the value of the work done, and shall be computed in accordance with the appropriate scale prescribed in this Schedule.

(3) When a surveyor is unable, owing to his client’s instructions, to complete either the survey or the plan, he shall be entitled to payment of the full value of the work completed.

3. Inclusive charges

Except where otherwise stated, the charges prescribed in this Schedule include the charges for—

(a) the plan of the survey, together with the field notes, computations, and other information required by these Regulations but do not include any plan referred to in paragraph 4 of this Schedule, and do not include any triangulation and/or trilateration charges referred to in paragraph 8 of this Schedule; and

(b) the cost of all labour and materials, but do not include the cost of boundary marks and survey marks, which shall be charged for as prescribed in paragraph 7 of this Schedule.

4. Charge for deed plans

The charge for deed plans shall be Sh. 2,000 for each set.

[Subsidiary]

5. Travelling and subsistence allowances

(1) The surveyor shall be entitled to recover transport and travelling charges at the rate of Sh. 80 per kilometre for necessary journeys incurred in the survey when travelling in his own transport, plus a time rate of Sh. 40 per kilometre travelled to cover the surveyor’s professional time.

(2) (i) When a journey is made by train, the transport and travelling charge shall be the cost of first class train fares, plus a time rate of Sh. 40 per kilometre travelled.
(ii) When a journey is made by air, the transport and travelling charge shall be the cost of first class air fares plus a time rate of Sh. 40 per kilometre travelled.

(3) The surveyor shall be entitled to reasonable subsistence allowance and hotel, camp, or other accommodation expenses.

[L.N. 96/1999.]

6. Charges at daily rates

(1) Consultancy fees shall be charged and shall not be below Sh. 5,000 per hour.

(2) On hourly rates the surveyor’s charge shall be Sh. 5,000 per hour.

(3) The cost of labour, materials, and travelling charges, and subsistence and accommodation allowances shall be added to the fee prescribed in subparagraph (1) and (2) of this paragraph.

(4) Hourly rates are to be charged only when the conditions are such that the other rates set out herein are inapplicable; and without prejudice to the foregoing they may be charged in the following cases—

(a) the preparation of plans from existing records, where no field work is required;

(b) interviews with officials of Government departments or local authorities;

(c) the preparation of additional plans or tracings, or the investigation of data required for title surveys, and not covered by any other provision in this Schedule;

(d) work involved when the client changes his scheme or layout after the survey has commenced;

(e) the location and verification of control points and beacons, and surveys to re-establish beacons, such surveys not amounting to complete resurvey;

(f) surveys within built-up commercial areas.

[L.N. 96/1999.]

7. Surveys within municipalities, townships, etc.

The following fees shall be charged for surveys of areas surveyed as plots of less than 10 hectares—

(a) the basic charge shall be as prescribed in paragraph 9 of this Schedule;

(b) the traversing charge for all traverse lines which are surveyed in accordance with regulation 60 of these Regulations for the establishment of the exterior boundaries of the land which is being surveyed, including the necessary connections to trigonometrical stations, standard traverses or other marks, and including such traverses as are required to establish new internal boundaries, shall be charged at the following rates—

<table>
<thead>
<tr>
<th>Description</th>
<th>Rate</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i) Third order traverses, for every 100 metres surveyed</td>
<td>Sh. 3,000</td>
</tr>
<tr>

<td>1,500</td>
<td>00</td>
</tr>
<tr>
<td>(iii) for every pin set in concrete</td>
<td>1,000</td>
<td>00</td>
</tr>
<tr>
<td>(iv) for every iron pin not set in concrete</td>
<td>500</td>
<td>00</td>
</tr>
</tbody>
</table>

Provided, that, where excavation of coral or other rock is made for the proper erection of any of the items specified in paragraphs (i), (ii), and (iii) of this subparagraph, an additional charge of Sh. 1,500 per beacon may be made;

(j) the unhealthy areas charge shall be an increase of 25 percent added to the charges prescribed by this paragraph.

[Ln. 96/1999.]

8. Rural surveys

(1) The following fees shall be charged for surveys in areas subdivided into plots each exceeding ten hectares.

(2) The basic charge shall be as prescribed in paragraph 9 of this Schedule.

(3) The traversing charge for—

(a) all fourth order traverse lines surveyed in accordance with these Regulations shall be at the following rates—

<table>
<thead>
<tr>
<th>Description</th>
<th>Sh.</th>
<th>cts</th>
</tr>
</thead>
<tbody>
<tr>
<td>(i) in easy country, for every 100 metres</td>
<td>1,500</td>
<td>00</td>
</tr>
<tr>
<td>(ii) in hilly country, for every 100 metres</td>
<td>2,000</td>
<td>00</td>
</tr>
<tr>
<td>(iii) in rough country, for every 100 metres</td>
<td>3,000</td>
<td>00</td>
</tr>
</tbody>
</table>

(b) all subsidiary traverses shall be at half the rates for fourth order traverses;

(c) all traverses requiring the measurements of offsets or tachymetric connections to curvilinear boundaries shall be at double the charges for fourth order or subsidiary traverses, as the case may be.

(4) The station charge for every station occupied for the observation or horizontal angles shall be Sh. 1,000:

Provided that the charge shall be made once only for each station.

(5) The triangulation and trilateration charges, where the survey or a proportion of the survey is carried out by these methods, shall be calculated on a time basis on rates as prescribed in paragraph 6 of this Schedule, plus a charge for the minimum necessary signals based on actual costs.

(6) (a) Traverse connections shall be charged at the rate prescribed in subparagraph (3) of this paragraph.

(b) Measurement of base lines shall be charged for at the rate prescribed in paragraph 7(b)(i) of this Schedule.
EIGHTH SCHEDULE—continued

(7) The cutting and clearing charges, the comer charges, the beacon placing/fixing charge, the beaconing charge, and the unhealthy areas charge, shall be as prescribed in paragraph 7 of this Schedule.

[L.N. 96/1999.]

9. Basic charges

(a) The basic charge shall be 50 percent of the charges prescribed in paragraph 7 and 8 of this Schedule plus 3 percent of the market value of the land to be surveyed and shall also include charges made under paragraph 8 of the Eighth Schedule.

(b) The value of the land shall be as mutually agreed between the licensed surveyor and the client or determined by a value under the Valuers Act (Cap. 532).

[L.N. 96/1999.]

10. Special charges

Notwithstanding any provision to the contrary in this Schedule, a licensed surveyor may, with the prior written agreement and approval of the Director, depart from the prescribed charges in cases where peculiar or special circumstances appear to warrant such a departure.

11. Charges to Government

Any taxes or charges levied by the Government shall be added to the total of the other charges.

[L.N. 96/1999.]

NINTH SCHEDULE

[Rule 33.]

CERTIFICATE FOR APPROVED ASSISTANTS

I certify that all the work performed in the field and in the office by my approved assistant, ............ ....................................................... , has been carried out under my personal direction, and I take full responsibility for all work so performed.

Signed ................................................................

Licensed Surveyor
LICENSED SURVEYORS CODE OF PROFESSIONAL CONDUCT, 1997

ARRANGEMENT OF REGULATIONS

Regulation
1. Citation.
2. Interpretation.
3. Standard of conduct.
4. Incompatible business.
5. Responsibility.
6. Soliciting and advertising.
7. Scales of fees.
8. Fraudulent reward.
9. Work previously assigned.
10. Confidentiality.
12. Conflict with Regulations.
14. Supervision of approved assistants.
15. Engagement of staff.
17. Conflict of interest.
18. Significant interest.
1. **Citation**

These Regulations may be cited as the Licensed Surveyors Code of Professional Conduct, 1997.

2. **Interpretation**

   In these Regulations, except where the context otherwise requires—

   “**Board**” means the Land Surveyors Board established under section 7 of the Survey Act.

   “**approved assistant**” means any person other than a licensed surveyor who assists a licensed surveyor in the execution of field survey, but does not include skilled and semi-skilled chainmen and labourers.

   “**licensed surveyor**” means a surveyor duly licensed as a surveyor under or by virtue of the provision of the Survey Act, but shall not include a Government Surveyor.

   “**profession**” means the profession of the licensed surveyor.

   Without limiting the ordinary meaning of the expression professional misconduct, it shall be considered professional misconduct for a licensed surveyor to contravene the following Regulations of Conduct.

3. **Standard of conduct**

   A licensed surveyor shall always maintain the high standard of conduct appropriate to his professional status, and shall not conduct himself in a manner that would, in the opinion of the Board prejudice that status or the reputation of the practice of a licensed surveyor.

4. **Incompatible business**

   A licensed surveyor shall not be connected in any way with any occupation or business which is, in the opinion of the Board, incompatible with the professional status of a licensed surveyor.

5. **Responsibility**

   A licensed surveyor shall at all times accept full responsibility for advice given to and work done for clients by himself, his partner or his approved assistants, so far as they relate to matters coming within the scope of his practice or employment.

6. **Soliciting and advertising**

   A licensed surveyor shall not solicit work or instructions, and shall ensure that the form, content and method of publication and distribution of any advertisement or announcement published, issued or authorized by him are in a manner approved by the Board.

7. **Scales of fees**

   A licensed surveyor shall observe all scales of fees approved by the Board; he shall neither accept nor give discount, commission, concession or allowances in connection with any professional work which may be entrusted to him.
8. Fraudulent reward
A licensed surveyor shall not accept financial or other reward for a particular service from more than one party, except with the full knowledge of all interested parties.

9. Work previously assigned
A licensed surveyor shall not accept instructions for any work for which he is aware that another licensed surveyor has already been retained, except in collaboration with or with the consent of such licensed surveyor or unless the other licensed surveyor’s instructions have previously been withdrawn.

10. Confidentiality.
A licensed surveyor shall treat as confidential any information imparted to him concerning the financial or business affairs, methods or processes of a client or employer.

11. Competence
A licensed surveyor shall inform a client or employer of any circumstances or business connections which may be deemed to prejudice his judgement or the services rendered to the client or employer.

12. Conflict with Regulations
A licensed surveyor shall not agree to any terms or conditions with a client or employer which are in conflict with these Regulations.

13. Responsibility in partnerships
Where a licensed surveyor is a partner in a firm of which he is the only partner licensed under the Survey Act, or where he is the only licensed executive director of a company, he shall be personally responsible to the client and the public for any cadastral survey performed or supervised by him or his firm or company; he shall personally assume the responsibility referred to in section 21 of the Survey Act. Where more than one partner or executive director is licensed under the Act, they shall jointly and severally assume the responsibility.

14. Supervision of approved assistants
A licensed surveyor shall not allow an unlicensed partner, co-director or subordinate to act as though he were licensed in the giving of evidence, carrying out of surveys or the charging of fees in connection with titles to land, except under the licensed surveyor’s full supervision.

15. Engagement of staff
A licensed surveyor shall not engage the staff of another employer without clearance from the employer.

16. Responsibility for title surveys
Where a licensed surveyor is employed by an organization of which none of the principals is a licensed surveyor, he shall be personally responsible for any title surveys performed or supervised by him; he shall personally assume the responsibility referred to in section 21 of the Survey Act.

17. Conflict of interest
A licensed surveyor in full-time paid employment shall not engage in professional practice which will conflict with his duties to the employer, except with the full knowledge of the employer.
18. Significant interest

A licensed surveyor in full-time paid employment who is a partner in any other firm or an executive director of any other company dealing in title surveys shall make this known to his employer.

19. Name of business

A licensed surveyor shall not conduct his business under a name or title which would, in the opinion of the Board, be inconsistent with his professional status and the reputation of the practice of a licensed surveyor.
