MEMORANDUM OF REASONS AND OBJECTS

Under Article 176 of the Constitution of Kenya, there’s established for each County a county government. In accordance with Article 235 (1) a county government is responsible for, within a framework of uniform norms and standards prescribed by an Act of parliament among other things the establishing and abolishing offices in its public service and appointing persons to hold or act in those offices.

It’s a value and principle of public service that the public service shall render efficient and effective service to the people.

Recognizing that the civil service will not be efficient and effective unless it is itself motivated and in its welfare adequately catered for, the County Government considers that as part of its obligation to have an efficient and dedicated civil service it shall create a conducive environment within which State and public officers shall serve.

Therefore, the County Government proposes in this Bill to establish a mechanism through which it may mobilize resources within the county to cater for the welfare of its State officers especially in the areas of housing and transport.

Accordingly the Bill establishes Busia County State Officers’ Revolving Fund into which monies will be paid to create a Fund that may be accessed by the State officers in the Executive organ of the County Government. The Fund shall be used to extend loans and other financial assistance to these officers on concessionary and preferential terms.

It is hoped that through this mechanism the County Government will make it possible for its officers to own their own houses and means of transport and have a conducive environment within which to serve the people of Busia County. In this way, the State and public officers will be motivated and productive and give their best in the service of the people of the County.
