The principal object of this Bill is to provide a legislative framework for the regulation of both air and noise pollution, and public nuisance in the Taita-Taveta County. It complements the provisions of the Environmental Management and Co-ordination Act, 1999.

The Bill prohibits a person from causing both air and noise pollution within the Taita-Taveta County, and imposes certain responsibilities on the Department of the county responsible for the environment regarding protection from pollution and public nuisance.

The Bill further specifies operations which are permitted for purposes of control of pollution under the Bill.

The Department is also tasked with some responsibilities relating to public nuisance and is required to take some measures to control the nuisance, including impounding of animals. It also defines which acts or conduct constitute offences for purposes of the Bill.

The enactment of this Bill shall not occasion additional expenditure of public funds.

Dated the 29th October, 2014.
