MEMORANDUM OF OBJECTS AND REASONS

Cancer is a significant cause of mortality worldwide with approximately 14 million new cases diagnosed in 2012. In Kenya, cancer is the 3rd leading cause of death after infectious and cardiovascular diseases, with an estimated 40,000 new cancer cases and 28,000 cancer deaths occurring each year. In Meru County an estimated 1,633 new cancer cases occurred between 2015 and 2016, and this number increases each year.

Cancer incidence is expected to rise by 70% in the next 20 years, with a majority of cases occurring in low-and middle-income populations. The burden of cancer is huge with financial, physical and emotional burdens placed on families and caregivers of cancer patients. This is compounded by a severely limited capacity to provide the necessary health care. Late-stage presentation and inaccessible diagnosis and treatment are also common.

Article 43 of the Constitution of Kenya, 2010 confers on every person the right to the highest attainable standard of health, which includes the right to health care services. With the devolution of health services, counties have a bigger responsibility in prioritization, planning and allocation of resources based on their unique needs. The development, review and monitoring of policies that enable coordination of cancer diagnosis, registration and surveillance is thus critical to the protection of this right for the people of Meru County.

To this end, the County Government of Meru, through this Bill, seeks to provide a legal framework for establishment of the Meru County Cancer Institute, as well as establishing hospital-based cancer registries in cancer treatment facilities in Meru County.

This will go a long way in reducing cancer incidence and mortality; and increasing cancer down-staging and survival rate in Meru County through primary prevention and early detection, quality diagnostics, treatment and the improvement of the quality of life for cancer patients in the county.

PART I of the Bill provides for preliminary provisions. This Part provides for the purpose of the Bill as the establishment of the Meru County Cancer Institute to provide education and training in health services; and for matters connected therewith and incidental thereto.

PART II of the Bill sets out the Administrative provisions of the Act. The Part provides for the establishment of the Meru County Cancer Institute, functions of the Institute and prescribes creation of a Board of Trustees to manage the affairs of the Institute. The mode of appointment
and powers of the Board as well as the Chief Executive Officer of the Institute are highlighted.

**PART III** of the Bill provides for financial provisions, which include a provision on funds for the administration of this Act. It also looks at auditing of the accounts to ensure fiscal responsibility.

**PART IV** of the Bill provides for the establishment of a County Cancer Register, notification of all cancer diagnosis to the Institute and alteration of the Register.

**PART V** of the Bill provides for miscellaneous provisions which includes the requirement of obtaining consent from persons with cancer to carry out cancer research, general penalty for offences committed against the Act, the Executive Member's power to make regulations and reporting on the progress of the implementation of the Act.

The enactment of this Bill will result in additional expenditure of public funds to be provided for through the annual budget estimates.

Dated the 22nd October, 2019.

MARTIN MWORIA MUTHURI,
Chairperson, Sectoral Committee on County Health Services.
